A SELECTIVE ANNOTATED BIBLIOGRAPHY OF FISHERY STATISTICAL PUBLICATIONS

compiled and annotated by

J. A. Dearing
4 Downham Way
Liverpool L25 4TX
UK

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS
ROME, June 1988

PREPARATION OF THIS DOCUMENT

The paper, prepared in accordance with a recommendation of the CWP (Coordinating Working Party on Atlantic Fishery Statistics) presents an annotated bibliography of national and international publications used as reference material in the preparation of the FAO Yearbooks of Fishery Statistics, and insertion in the FAO Fisheries Statistical Database (FISHDAB). The publications included are those available in the FAO David Lubin Memorial Library at the time of preparing this document.

The bibliography has been compiled and abstracted by J. A. Dearing, Consultant, with the assistance of C. Cuerden, Librarian, FAO Fisheries Branch Library, and A. Crispoldi, Fishery Statistician, Fishery Information, Data and Statistics Service, Fisheries Department.

ABSTRACT

National and international publications currently presenting statistical data related to the fishery sector are annotated in this document in terms of their statistical content. The bibliographic list is selective, since it is limited to the documents available to the Library of the Food and Agriculture Organization of the United Nations and its Fisheries Department. References to fishery censuses and surveys are also included.

W/S 7846

For bibliographic purposes this document should be cited as follows:

Dearing, J.A. (comp.), A selective annotated bibliography of fishery
1988 statistical publications. FAO Fish. Circ., (813):219 p.

A vehicle for distribution of short or ephemeral notes, lists, etc., including provisional versions of documents to be issued later in other series.

CONTENTS

Publications include those of:-

Argentina
Australia
Australia - (Tasmania)
Bahamas
Bahrain
Barbados
Belgium
Brazil
Burma
Canada
Chile
China
China - (Taiwan Province)
Colombia
Congo
Côte d'Ivoire
Cuba
Cyprus
Denmark
Djibouti
El Salvador
Faeroe Islands
Fiji
Finland
France
French Guyana
French Polynesia

INTRODUCTION

The FAO Consultation on Global Catch Statistics (Copenhagen, Denmark, 23-25 May 1984) proposed that FAO indicate the sources of the data published in the FAO Yearbooks of Fishery Statistics, other than the statistics obtained through questionnaires returned annually by national statistical reporting offices. This proposal was discussed and supported at the 12th Session of the CWP (Coordinating Working Party on Atlantic Fishery Statistics), Copenhagen, Denmark, 25 July - 1 August, 1984. Although the suggestion was to include the bibliography information at the end of the Yearbooks themselves (as in earlier editions of the Yearbook), it was thought, when compiling the list, that it would be more useful as a separate publication, which could be distributed to national statistical offices to review, and revised at intervals.

The publications included in the bibliography are those which were available in the FAO David Lubin Memorial Library in September 1986. In cases where fishery statistics appear in more than one national publication, reference has been made only to the major sources. Statistics on external trade for fishery products are generally available in national trade yearbooks and bulletins. Reference to those sources, therefore, has been omitted. The trade publications included in this bibliography are those which cover exclusively fish and fishery products.

In the case of bilingual publications, the English title has been used, when available, otherwise the language which comes first on the title page.

This document was ready for the press at the beginning of 1987, but because of financial stringency its printing has been delayed for over a year. In general no material received in the FAO Library after September 1986 has been included. However, a few documents becoming available to FAO for the first time in 1987 have been listed, and the entry for Canada has also been extensively revised to reflect major changes in the presentation of Canadian fishery statistics.

Argentina

Title:	Industria Pesquera
Sub-title:	Evolución mensual de la producción 1984 Cifras retrospectivas 1965-1984
Issuing Body:	Departamento de Estadística, Dirección de Estudios Socio-Económicas, Municipalidad del Partido de Gral. Pueyrredon
Place of Publication:	Mar del Plata
Date of Publication:	1985
Number of Pages:	35 p.
Volume/Issue Number:	
Series Title/Number:	Serie de pesca No.16
Frequency of Publication:	Annual
Notes:	Title and sub-titles vary

Fishery statistics for Mar del Plata are presented. Tables provide: 1) quantities of marine catch (deep-sea and coastal) by month and by species group; 2) the utilization of catch by channel of disposition and month; 3) quantities of exports by species group and month, by product form and month and by country of destination and month; 4) quantities of catch since 1965 by channel of disposition and by species.

Argentina

Title:	Memoria y Balance, ejercicio 1980 - 1981.
Sub-title:	
Issuing Body:	Camara Marplatense de Industriales del Pescado
Place of Publication:	Mar del Plata
Date of Publication:	No publication date
Number of Pages:	36 p.
Volume/Issue Number:	35
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual fishery statistics are presented. Quantities and values of catch are given for the whole of Argentina by year and by year and port for deep sea and coastal fisheries. Catch for the port of Mar del Plata is given by year and species group for deep sea and coastal fisheries. Quantities and values of exports are presented by year, product group and country of destination. For mackerel, anchovy and bonito a comparison is made of the quantities purchased by and prices to industrial processing plants over the past 5-10 years. Audits of the Camara Marplatense de Industriales de Pescado are published.

Australia

Title:	Fisheries, Australia. 1983-1984
Sub-title:	
Issuing Body:	Australian Bureau of Statistics
Place of Publication:	Canberra
Date of Publication:	1985
Number of Pages:	3 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Previous title: Fisheries (Canberra)

Statistical summaries of the production from marine and freshwater fisheries for the last two financial years are presented. Quantities and values of production (on a liveweight basis) of fish, crustaceans, molluscs and the principal types of each are given by state/territory.

Australia

Title: Domestic & Overseas Fish Market Notes. March 1986.

Sub-title:

Issuing Body: Fisheries Management Policy Section, Australian Fisheries Service, Department of Primary Industry

Place of Publication: Canberra

Date of Publication: 1986

Number of Pages: 21 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Irregular

Notes:

The quantities and values of imports and exports of marine produce so far that year/split year are compared with those of the previous year. Total Australian exports and imports are given by product type/species. More detailed statistics on individual species/products are included. Australian exports by principal countries of destination, the imports of major market countries (USA, Japan and Hong Kong) by country of import origin and wholesale prices in major market countries are included for prawns, rock lobster, abalone and scallops. The end of month cold storage holdings in major market countries are given for prawns and rock lobster. Quantities and prices of domestic market sales are given for prawns, scallops and species of fresh/frozen fish. Australian imports product type/species and country are given for prawns, fresh/frozen fish and canned fish. Quantities of Northern Prawn Fishery landings are also provided by month and species of prawn.

Australia

Title:	Australian Fisheries
Sub-title:	
Issuing Body:	Australian Fisheries Service, Department of Primary Industry
Place of Publication:	Canberra
Date of Publication:	February 1986
Number of Pages:	56 p.
Volume/Issue Number:	54 (2)
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Some statistical data on market prices and overseas trade of major fishery commodities are included in this magazine which is an official publication of the Australian Fisheries Service. Preliminary figures on quantities and values of imports and exports available so far that split year, are given by product. Comparisons are made with the corresponding period in the previous year. Quantities and prices in the fish markets of New South Wales, Queensland and Victoria over the last two months are given by species.

Australia - (Tasmania)

Title:	Department of Sea Fisheries. First Annual Report for the year ended 30 June 1985
Sub-title:	
Issuing Body:	Department of Sea Fisheries
Place of Publication:	Hobart
Date of Publication:	1986
Number of Pages:	23 p.
Volume/Issue Number:	8
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	This publication replaces the Annual Reports of the former Fisheries Development Authority (replaced by the Department of Sea Fisheries) which had produced seven of these reports.

Fishery statistics included in this departmental report refer to the Tasmanian catch by species in landed weight, live weight and value for the financial year 1984-85. Some data on aquaculture production for the major species farmed are also given.

Bahamas

Title:	Agriculture and Fishing Statistics Report. 4th Quarter, 1980.
Sub-title:	
Issuing Body:	Department of Statistics
Place of Publication:	Nassau
Date of Publication:	November 1983
Number of Pages:	44 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Quarterly statistics on fish landings in the Bahamas are included in this report. Tables give the quantities and values of landings for that quarter by month and species and for the year so far by area of catch, species and quarter.

Bahrain

Title:	Technical Circular
Sub-title:	Fishery statistics for the first half of 1985
Issuing Body:	Fisheries Statistical Service Directorate of Fisheries, Ministry of Commerce and Agriculture.
Place of Publication:	Manama
Date of Publication:	December 1985
Number of Pages:	34 p.
Volume/Issue Number:	No.28
Series Title/Number:	
Frequency of Publication:	Bi-annual
Notes:	Sub-title varies

Statistics on landings for both the artisanal and industrial fishing sectors are provided. Quantities of landings are given by species and by month. Further statistics are given on the artisanal sector by fishing gear and by landing site. Monthly wholesale and retail prices by species in Manama market are also presented.

Barbados

Title:	Fishstat 1985
Sub-title:	
Issuing Body:	Agricultural Planning Unit, Ministry of Agriculture and Natural Resources
Place of Publication:	Barbados
Date of Publication:	February 1986
Number of Pages:	27 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Only issue available

Annual statistics collected by the Agriculture Planning Unit are presented. Quantities of landings are allocated by landing site and month, by landing site and species and by month and species. For each landing site quantities of landings are given by month and species, and for each month by landing site and species.

Belgium

Title:	De Belgische Zeevisserij. Aanvoer en Besomming 1984
Sub-title:	
Issuing Body:	Dienst voor de Zeevisserij Bestuur der Economische Diensten, Ministere de Landbouw.
Place of Publication:	Oostende
Date of Publication:	
Number of Pages:	139 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on Belgian marine fisheries are presented. Statistics include tables on: 1) the quantities and values of Belgian vessel catches landed in Belgian and foreign ports subdivided by year, port/country of landing, species and type of fishery; 2) average prices of Belgian landings in Belgian ports by year and month for selected species; 3) average prices in foreign ports by year; 4) the quantities of withdrawals from markets and fish unfit for consumption; 5) the number of Belgian vessels, their horsepower, gross tonnage and catch/effort statistics subdivided by type of fishery; 6) the number of fishing vessels by tonnage class and port; 7) the quantity and value of landings by foreign vessels in Belgian ports by species and nationality; 8) the number of trips and quantity and value of catch by fishing ground and port; 9) the quantity of catch and quota of selected species by ICES fishing area and month.

Belgium

Title:	Statistiques Agricoles. Janvier, Fevrier, Mars 1986.
Sub-title:	
Issuing Body:	Institut National de Statistique
Place of Publication:	Bruxelles
Date of Publication:	1986
Number of Pages:	263 p. *
Volume/Issue Number:	1-3.
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Monthly and occasionally annual marine fishery statistics are included in this bulletin. Statistics on Belgian landings, fishing fleets and manpower may be presented. Quantities and values of landings are subdivided by fishing ground, species, port of landing and vessel tonnage class. The number of vessels, fishing trips, fishing days, days at sea and CPUE are given by year/month and vessel tonnage class. The number of fishermen by type of employment and fish prices are sometimes included.

Belgium

Title:	Rapport Annuel Sur l'Evolution de la Flotte de Pêche. 1985
Sub-title:	
Issuing Body:	Commisariat Maritime en Chef de la Côte, Administration de la Marine et de la Navigation Interieure, Ministere des Communications.
Place of Publication:	Bruxelles
Date of Publication:	
Number of Pages:	42 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the marine and small coastal fleets in terms of numbers, tonnage, horsepower, age of vessels, fishermen and fishing enterprises are presented. Tables for the marine fleet include: 1) the number of vessels subdivided by gross tonnage, horsepower, material of construction, country where constructed and port; 2) the name, gross tonnage, net tonnage and horsepower of individual vessels by port and tonnage class; 3) the number of engines and hulls by year of construction or age; 4)the number of fishermen allocated by type of employment, tonnage class of vessel, port and age group; 5) the enterprises to which vessels belong - numbers, types and numbers of vessels owned. Statistics for the small coastal fleet give the number, horsepower, gross tonnage and average horsepower of vessels by port.

Belgium

Title:	Uitkomstem Van de Belgische Zeevisserij Gedurende het Jaar 1984
Sub-title:	
Issuing Body:	Dienst voor de Zeevisserij, Bestuur der Economische Dienten, Ministere van Landbouw.
Place of Publication:	Oostende
Date of Publication:	
Number of Pages:	53 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the average returns and costs of 113 Belgian sea fishing vessels, i.e. 56% of the marine fleet are presented. Tables on average returns and average returns per sea day are given by gross tonnage class. A detailed breakdown of vessel costs is included. An analysis and discussion of the results is given.

Brazil

Title:	Estadística da Pesca. 1979
Sub-title:	Produção: 1979
Issuing Body:	Unidade de Estadística, Coordenadoria de Planejamento, Secretaria de Planejamento e Orçamento, Superintendência do Desenvolvimento da Pesca (SUDEPE), Ministerio da Agricultura.
Place of Publication:	Brasilia
Date of Publication:	1980
Number of Pages:	141 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on fish production in Brazil are presented. The quantities and values of production of marine and freshwater fisheries are given: 1) by region, state and species group; 2) for crustaceans, molluscs, turtles and whales by species; 3) for fish and crustacean aquaculture by state and species; 4) for fish catch by state and species and by state, species group and fishing sector (industrial or artisanal).

Burma

Title:	Report to the Pyithu Kluttaw on the Financial, Economic and Social Conditions of the Socialist Republic of the Union of Burma. 1986/87
Sub-title:	
Issuing Body:	Ministry of Planning and Finance
Place of Publication:	Rangoon
Date of Publication:	1986
Number of Pages:	381 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on fisheries are included alongside financial, socio-economical statistics. Annual series fishery statistics allocated by fiscal year (1961/62 onwards) include: 1) the area of hatcheries and the number of fingerlings distributed from them; 2) the area of fish ponds and quantity of production from them; 3) the number of and quantity of production from leasable fisheries; 4) the quantity of production from freshwater fisheries (fish ponds and leasable fisheries); 5) quantity of production from state marine fisheries; 6) fish production by type of fishery; 7) the quantity of pearl and shell production; 8) production and marketing statistics of the co-operative inland fisheries, marine fisheries and fish ponds.

Canada

Title:	Canada Fisheries. Annual Statistical Review 1983
Sub-title:	
Issuing Body:	Economic Analysis and Statistics Division, Economic and Commercial Analysis Directorate, Department of Fisheries and Oceans.
Place of Publication:	Ottawa
Date of Publication:	1985
Number of Pages:	182 p.
Volume/Issue Number:	Volume 16
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

A summary of statistical information on Canadian fisheries is presented. The first section is a general review covering various aspects of the fishing industry such as Canada's position in world fisheries and the landings of NAFO and INPFC. Other sections consist of: 1) catches and landed values of both sea and freshwater fisheries for each province/territory by species, by vessel length and main species, by vessels over 25 gross tons and by type of gear; 2) production of the sea fisheries for each province and coast by main species and by product form; 3) quantities and values of exports and imports by product group and by country of destination/origin; 4) numbers of fishermen and the numbers and values of fishing vessels for each province/territory. Data for the review were collected by the Department of Fisheries and Oceans apart from import/export statistics which are from Statistics Canada publications.

Canada

Title:	Canadian Fisheries - Landings September 1987
Sub-title:	
Issuing Body:	Communications Directorate, Department of Fisheries and Oceans.
Place of Publication:	Ottawa
Date of Publication:	December 1987
Number of Pages:	14 p.
Volume/Issue Number:	9 (9)
Series Title/Number:	Economic and Commercial Analysis Series, Surveys and Statistics, Report N.17
Frequency of Publication:	Monthly
Notes:	

Quantities and values of landings so far that year are compared with data from the corresponding period of the previous year. Marine landings statistics are given for each province by species group and species. Freshwater landings statistics are given by species. Some information on prices received by fishermen (by species) is also included.

Canada

Title:	Canadian Fisheries - Products and Inventories. September 1987
Sub-title:	
Issuing Body:	Communications Directorate, Department of Fisheries and Oceans.
Place of Publication:	Ottawa
Date of Publication:	January 1988
Number of Pages:	9 p.
Volume/Issue Number:	7 (12)
Series Title/Number:	Economic and Commercial Analysis Series, Surveys and Statistics, Report N.22
Frequency of Publication:	Monthly
Notes:	Replaces Canadian Fisheries - Products and Stocks

Products and stocks of the Canadian sea fisheries are reported. Quantities of production and end of month stocks are given by product for the Atlantic coast, the Central region and Pacific coast sea fisheries. The data are compared with those from the corresponding period in the previous year.

Canada

Title:	Canadian Fisheries - International Trade. November 1987
Sub-title:	
Issuing Body:	Communications Directorate, Department of Fisheries and Oceans.
Place of Publication:	Ottawa
Date of Publication:	February 1988
Number of Pages:	14 p.
Volume/Issue Number:	9 (11)
Series Title/Number:	Economic and Commercial Analysis Series, Surveys and Statistics, Report N.20
Frequency of Publication:	Monthly
Notes:	Combines: "Canadian Fisheries - Exports" (entitled Canadian Exports of Fisheries Products up to 1980) and "Canadian Fisheries - Imports" (entitled Canadian Imports of Fishery Products up to 1980) as from data month April 1985.

Statistical summaries of Canadian imports and exports of fish products so far that year are compared with those of the corresponding period in the previous year. Quantities and values of imports and exports are given by product and country of origin/destination, and by main area of origin/destination.

Canada

Title:	Canadian Fisheries - Statistical Highlights 1986
Sub-title:	Landings, Products, Exports, Imports
Issuing Body:	Communications Directorate, Department of Fisheries and Oceans.
Place of Publication:	Ottawa
Date of Publication:	October 1982
Number of Pages:	25 p.
Volume/Issue Number:	N.8
Series Title/Number:	Economic and Commercial Analysis Series, Surveys and Statistics, Report N.8
Frequency of Publication:	Annual

Notes:

Statistical information on landings, products, exports and imports of the Canadian fishing industry are summarized. Statistical tables provided are: 1) quantities of catch and landed values by main species; 2) quantities and values of fishery product by main product group and species; 3) quantities and values of exports by main product group and country; 4) quantities and values of imports by main product group and country. A narrative section highlights any important changes.

Chile

Title: Annuario Estadístico de Pesca (Santiago). 1985

Sub-title:

Issuing Body: Servicio Nacional de Pesca, Ministerio de Economia, Fomento y Reconsutrcción.

Place of Publication: Santiago

Date of Publication:

Number of Pages: 180 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Annual

Notes:

Annual statistics on Chilean fishery landings, fish processing and aquaculture are presented. Quantities of total landings and landings subdivided into industrial and artisanal are given by region/port and month, by species and region and by species and month. Detailed tables on fish processing give the quantities of fish used and product obtained subdivided by region, species, type of processing and month. For factory ships the quantities of catch and quantities of production are subdivided by species, month and product form. The quantity of seaweed collected is allocated by region, month, port and species and the quantity of agar-agar production is given by month. The quantity of aquaculture harvest is subdivided by species and region.

Chile

Title:	Boletín de Comercio, Sector Pesquero. Septiembre 1985
Sub-title:	
Issuing Body:	Ministerio de Agricultura
Place of Publication:	Santiago
Date of Publication:	
Number of Pages:	38 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	Prior to 1985, data included in Anuario de Exportaciones Silvoagropecuarias, published by the Oficina de Planificación Agricola

Statistics on Chilean fishery exports are presented. Fishery exports are classified into four categories - primary products, processed products, by-products and fish reproduction products. Statistics for each category give the quantities and average prices of exports by products for that data month and for the year so far. More detailed statistics for the data month give the quantities and unit prices of exports by product, country of destination, port of embarkation and the exporter.

Chile

Title:	Sistema de información pesquera
Sub-title:	Principales indicadores de actividad. Serie histórica 1982-1986
Issuing Body:	Corporación de Fomento de la Producción and Instituto de Fomento Pesquero
Place of Publication:	Santiago
Date of Publication:	1987
Number of Pages:	228 p.
Volume/Issue Number:	2
Series Title/Number:	
Frequency of Publication:	
Notes:	

Time series and indicators are presented for the primary (catching), secondary (processing) and tertiary (marketing) sectors. Statistics on monthly catches by type of fishing vessel, regions and ports within the region are presented for pelagic fish, demersal fish, crustaceans and benthonic species. Alongside the operational data of the enterprises, statistics on production of processed commodities are provided for the reduction, freezing and canning industry. Monthly data on quantities, values and average unit values of exports by commodity and country of destination are also included.

China

Title:	Agricultural Yearbook (China) 1985
Sub-title:	English edition
Issuing Body:	State Statistical Bureau
Place of Publication:	Beijing
Date of Publication:	1987
Number of Pages:	328 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	First English edition based on the Chinese edition of the China Agricultural Yearbook.

Some summarized fishery statistics are included in this yearbook: 1) a time series from 1949 to the year of issue of the total output of aquatic products by environment, by capture and culture fishery; 2) a time series of marine production in quantity for the main species caught: 3) for the most recent year, number of fishing grounds, number of workers, fishing townships, villages, households and fishing villages' population by province.

China

Title:	Statistical Yearbook of China, 1986
Sub-title:	
Issuing Body:	State Statistical Bureau
Place of Publication	Beijing
Date of Publication:	1987
Number of Pages:	761 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

In addition to statistics on the output of aquatic products by environment by year, fishery data included in this volume present the same output by province by environment, by capture and culture, by broad group of species and the global amount of exports of aquatic products in quantity and value.

China - (Taiwan Province)

Title:	Fisheries Yearbook: Taiwan Area. 1984
Sub-title:	
Issuing Body:	Taiwan Fisheries Bureau Department of Agriculture and Forestry
Place of Publication:	Taipei
Date of Publication:	May 1985
Number of Pages:	279 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Formerly published as part of Taiwan Agriculture Yearbook - Vol. III, Statistics of Fisheries.

Statistics cover fishermen, fish production, market supplies, processed fishery production, aquaculture and international trade. The number of fishermen and fishing households are given by fishery sector, district and year. Detailed statistics on fish production present the quantities and values of production subdivided by fishery sector, gear, species, district, month (no values) and year. The quantity and price of fish sold at wholesale and retail markets are given by species and district. The number and type of processing plants and the quantity and value of fishery products produced subdivided by product form, species, district, month (no values) and year are given. Statistics on aquaculture provide the area under culture and the quantity and value of fish fry production by district, month and species. International trade statistics give the quantity and value of fishery imports and exports by commodity and year.

Colombia

Title:	Estadísticas Pesqueras. 1977
Sub-title:	
Issuing Body:	Unidad de Estadísticas, Subgerencia de Educación y Ordenamiento Ambiental, Instituto Nacional de los Recursos Naturales Renovables y de Protección al Medio Ambiente, Ministerio de Agricultura.
Place of Publication:	Bogotá
Date of Publication:	September 1979
Number of Pages:	59 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on marine and freshwater fish production, catch of ornamental fish, fishery imports and exports are provided. Data on landings is collected from various sources: 1) fish transporters' official licence document; 2) main ports and markets; 3) factories to which direct landings are made. The quantities of marine and freshwater landings are given for all Colombia by species, disposition of catch and by source of data and for inland catches by species and river/area of capture. More detailed statistics are given for landings in each region collected from each source by species and disposition of catch. The number of ornamental fish captured is given by region and species. The quantity and value of exports of fish for consumption and ornamental fish are allocated by region, species, product form and country of destination.

Congo

Title:	Statistiques de la pêche artisanale maritime au Congo, 1984-1985
Sub-title:	
Issuing Body:	Office de la Recherche Scientifique et Technique Outre-Mer
Place of Publication:	Pointe Noire
Date of Publication:	December 1986
Number of Pages:	36 p.
Volume/Issue Number:	
Series Title/Number:	Nouvelle Série N.67
Frequency of Publication:	Irregular
Notes:	

Annual catch and effort statistics of the artisanal marine fisheries are presented. Statistical tables include catch by species and fishing gear allocated by type of canoe and by beach of landing. Comparison by beach of the average catch per unit of effort for each type of canoe/gear are also presented.

Côte d'Ivoire

Title:	Statistiques de Pêches des Sardiniers Ivoiriens. 1980
Sub-title:	
Issuing Body:	Centre de Recherches Oceanographiques, Ministère de la Recherche Scientifique.
Place of Publication:	Abidjan
Date of Publication:	October 1981
Number of Pages:	70 p.
Volume/Issue Number:	4 (2)
Series Title/Number:	Serie Statistique
Frequency of Publication:	Semi-annual
Notes:	

Annual catch and effort statistics for the sardine fisheries (sardine, herring, mackerel, etc.) of the Côte d'Ivoire landed in Abidjan are presented. Statistics provided for each two-week period are as follows: 1) the number of fishing trips; 2) the quantities of landings by species and by fishing area and species; 3) the number of days at sea by fishing area; 4) catch, effort and CPUE by fishing area; 5) the quantity, value and unit value of landings by species. Summary tables present the quantity and value of catch, effort and CPUE for the whole year by fishing are and species and for each month by species. Some annual series catch and effort statistics are given by year and species. In the past statistics from Sierra Leone and Senegal have also been included in this publication.

Côte d'Ivoire

Title: Rapport d'Activité pour l'Année 1985

Sub-title:

Issuing Body: Laboratoire,
Direction des Pêches,
Ministère du Developpement Rural.

Place of Publication: Abidjan

Date of Publication: 1986

Number of Pages: 37 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Irregular

Notes:

Annual statistics on fishery activities in the port of Abidjan are presented. Data on landings, exports and processing is compared with that of previous year. Statistical tables include: 1) the quantity of all frozen fish landings (except tuna) subdivided by month, by fishing company, by country of vessel origin, by economic community, e.g. OECD, and by species; 2) the value and average price of total frozen fish landings (except tuna); 3) the quantity of frozen tuna landings and trans-shipments by country of vessel origin, by consignee company, by species and by disposition, i.e. whether the tuna is processed or exported; 4) the quantity of tuna landings received by and actually processed by processing companies; 5) the quantity and value of canned tuna exports by country of destination; 6) the quantity of shrimp exports by company and by year; 7) the quantity of fish meal and oil production by year.

Cuba

Title:	Anuario Estadístico de Cuba. 1981.
Sub-title:	
Issuing Body:	Comité Estatal de Estadísticas
Place of Publication:	La Habana
Date of Publication:	December 1981
Number of Pages:	368 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

In the few tables devoted to fisheries some brief statistics on the Cuban fishing fleet, industrial production of fishery products and trade are included. Tables present: 1) the number of vessels in the deep-sea fleet by type of vessel and year; 2) the number of vessels in the coastal fleet by province and length of vessel; 3) the value of industrial fishery production by year; 4) the quantity of production of processed fishery products by product type and year; 5) the quantity of domestic trade by product type and year; 6) the quantities and values of imports and exports by commodity form and year and by country.

Cuba

Title:	Boletín Estadístico Mensual de Cuba. Deciembre 1985
Sub-title:	
Issuing Body:	Comité Estatal de Estadísticas
Place of Publication:	La Habana
Date of Publication:	
Number of Pages:	144 p. *
Volume/Issue Number:	12
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Statistics on fish catch and processing are included with those on population, education, tourism, etc. The turnover of the fishing industry is given by year and quarter. The quantity of catch and the quantity of production of main product types of processed fish are allocated by year and by month for the latest two years.

Cyprus

Title:	Annual Report on the Department of Fisheries and the Cyprus Fisheries for the Year 1984
Sub-title:	
Issuing Body:	Department of Fisheries, Ministry of Agriculture and Natural Resources.
Place of Publication:	Nicosia
Date of Publication:	1985
Number of Pages:	90 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on Cyprus fisheries in terms of landings, fishing effort, manpower, vessels and fish consumption are presented. Fishing effort and quantities of landings are given for: 1) the trawl and inshore fisheries by species, area, month and year; 2) for the swordfish fishery by month and area; 3) for the sponge fishery by month. The number of fishermen are given by fishing station and by age. The number of inshore fishing vessels are given by size, age and place of construction. The length, engine horsepower, country of origin, year of construction and home port of trawl vessels are given for individual vessels. Quantities and values of imports are allocated by commodity group and year. The annual average and per capita consumption of fish in Cyprus are given by source and product type.

Denmark

Title:	Statistisk Arbog. (Kobenhavn) 1985
Sub-title:	
Issuing Body:	Danmarks Statistisk
Place of Publication:	Kobenhavn
Date of Publication:	1985
Number of Pages:	627 p. *
Volume/Issue Number:	Vol. 89
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	From 1918 to 1977 detailed fishery statistics were published separately as "Fiskeriberetning".

Statistics on the fisheries of Denmark, the Faroe Islands and Greenland re included in this statistical yearbook. Tables provided on Danish fisheries are: 1) the quantity and value of Danish marine catch by port, by fishing ground and by main species; 2) the number of Danish marine fishermen; 3) the number of Danish sea fishing vessels by tonnage group; 4) the value of Danish fish exports and imports by product group and exports by country of destination; 5) Danish average retail fish prices; 6) the quantity of sales of processed fish products by product group.

Denmark

Title:	Statistisk Tiarsoversigt. 1985
Sub-title:	
Issuing Body:	Danmarks Statistik
Place of Publication:	Kobenhavn
Date of Publication:	1985
Number of Pages:	183 p. *
Volume/Issue Number:	Vol. 26
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on Danish marine fishing over the last ten years are included in this publication. Tables provide: 1) the number of full-time and part-time fishermen; 2) the number and value of fishing vessels by tonnage class; 3) the quantities and values of catch allocated by main species and by fishing ground.

Djibouti, Republic of

Title:	Annuaire de Statistique Djibouti
Sub-title:	Resultats de 1985
Issuing Body:	Direction Nationale de la Statistique, Ministère du Commerce, des Transports et du Tourisme.
Place of Publication:	Djibouti
Date of Publication:	
Number of Pages:	124 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery statistics on fish production and sales of the marine fishery cooperative of Djibouti are included in this general statistical publication. The quantity of production of fish and crayfish is given by month and year and by species and year. The quantity of fish sales is given by destination and month and by destination and year.

El Salvador

Title:	Boletín Informativo de Producción Pesquera. Octubre - Diciembre 1981
Sub-title:	
Issuing Body:	División de Economía y Administración Pesquera, Dirección General de Recursos Pesqueros, Ministerio de Agricultura y Ganaderia.
Place of Publication:	San Salvador
Date of Publication:	December 1982
Number of Pages:	86 p.
Volume/Issue Number:	81/4
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Quarterly statistics for the industrial, artisanal and aquaculture sectors of El Salvador's fisheries are presented. Statistics on the industrial sector which is mostly prawn and shrimp fishing include quantities of landings by month and disposition (type of processing), quantities and values of exports by month, and fishing effort by fishing company and month. For the artisanal sector quantities and values of landings are given by landing site and species/product group, and for each landing site by month, species and species/product group; quantities and values of exports are given by species and month; average wholesale and retail prices in San Salvador are given by species and month. Statistics on aquaculture include monthly fish production and numbers of fish fry produced by fish nurseries.

Faeroe Islands

Title:	Arbog for Faeroerne. 1984
Sub-title:	
Issuing Body:	Faeroernes-Landsstyre
Place of Publication:	Thorshavn
Date of Publication:	
Number of Pages:	350 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on Faeroe Island fish catches and international trade in fishery products are included in this yearbook. Tables provide data on: 1) the quantity of catch for each fishery sector (coastal, central and distant waters) with subdivisions by fishing area, main species, year, vessel type and channel of disposition; 2) the TAC and actual fish catch in coastal waters by main species and year; 3) the total Faroe Island and foreign catch in coastal waters by country; 4) the quantity of production of processed fish products by product group and year; 5) the quantity and value of stocks of fish and fish products; 6) fish prices by selected species and product form; 7) the number and type of licences granted to fish breeders; 8) the quantities and values of exports by commodity and year.

Faeroe Islands

Title:	Statistisk Arbog. (Kobenhavn) 1985
Sub-title:	
Issuing Body:	Danmarks Statistisk
Place of Publication:	Kobenhavn
Date of Publication:	1985
Number of Pages:	627 p. *
Volume/Issue Number:	Vol. 89
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the fisheries of Denmark, the Faeroe Islands and Greenland are included in this statistical yearbook. Tables provided on Faeroe Islands fisheries are: 1) the number and tonnage of fishing vessels of more than 20 GRT by year; 2) the quantity of catch by main species and by fishing area; 3) the value of exports by product.

Fiji

Title:	Fisheries Division Annual Report. 1985
Sub-title:	
Issuing Body:	Fisheries Division, Ministry of Agriculture and Fisheries.
Place of Publication:	Suva
Date of Publication:	
Number of Pages:	32 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

The state of Fiji fisheries and the work of the Fisheries Divison are discussed. Fishery statistics on landings in quantity in value, processing, sales, prices and international trade are provided. Tables provide data on: 1) numbers of fishermen and fishing vessels; 2) tuna catches and effort annually by area of capture and monthly by vessel; 3) catch and effort of bait fishing by area; 4) monthly tuna supplies to canneries by fishing method and annual sales; 5) exports and imports of fishery products by country of destination and origin; 6) prices of fish by species by municipal market outlets.

Finland

Title:	Suomen Tilastollinen Vuosikirja. 1984
Sub-title:	
Issuing Body:	Tilastokeskus
Place of Publication:	Helsinki
Date of Publication:	1985
Number of Pages:	521 p. *
Volume/Issue Number:	
Series Title/Number:	New Series 80
Frequency of Publication:	Annual
Notes:	

Some brief statistics on Finnish marine and inland fisheries are included in this yearbook. The number of marine and inland fishing vessels, part-time and full-time fishermen and the quantity and value of marine and inland fish catch by species and type of fisherman are provided.

Finland

Title:	Suomen Kalatalous. 1983
Sub-title:	
Issuing Body:	Kalataloudellinen Tutkimustoimisto
Place of Publication:	Helsinki
Date of Publication:	
Number of Pages:	96 p. [1]
Volume/Issue Number:	No.51
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Statistics on fish culture production and fish catches are occasionally found in this publication.

[1] Statistics included as a supplementary sheet

France

Title:	Statistiques des Pêches Maritimes. 1982, 1983, 1984

Frequency of Publication:	Annual
Notes:	

Annual statistcs on French fish landings, international trade and landings in DOM-TOM are presented. Tables provide: 1) quantities, values and average prices of French landings allocated by species, by district, by district and species and by main species and district; 2) quantities and values of landings in St.Pierre et Miquelon and la Reunion are given by species; 3) the quantities and values of oyster and mussel culture production by district and species; 4) the quantity and value of "la grande pêche" production by species and product form; 5) the quantity and value of imports by species and main country and by product group; 6) the quantity and value of exports by product group; 7) the number, power and tonnage of fishing vessels by type; 8) the number of fishermen by region, district and fishery sector.

France

Title:	Rapport sur la Production de l'Industrie des Pêche Maritimes. 1983
Sub-title:	
Issuing Body:	Assemblée Générale du Comité Central des Pêches Maritimes.
Place of Publication:	Paris
Date of Publication:	October 1984
Number of Pages:	65 P.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on marine fish catches of species utilized mainly by the fish processing industry are presented. Quantities, values and some average prices of catch are given for: 1) fresh, frozen and salted fish subdivided by product form, species group, species and landing site; 2) crustaceans subdivided by species and landing site; 3) molluscs by species and landing site or type of culture; 4) the total catch by region, by region, port and species group and main species and by product group. Some additional statistics such as the quantity of production of canned fish products, the quantity and value of fish product consumption by product form and species, the number of fishing vessels by horsepower and tonnage class and the number of fishermen by fishery sector are included.

France

Title:	Rapport sur le Commerce Exterieur des Produits de la Pêche. 1984
Sub-title:	
Issuing Body:	Assemblée Générale du Comité Central des Pêches Maritimes.
Place of Publication:	Paris
Date of Publication:	October 1985
Number of Pages:	60 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

A detailed analysis of the French imports, exports and trade balance of fishery products is presented. Statistics include tables on: 1) the quantity and value of trade deficit by main species; 2) for each main species the quantity, value and average price of imports and exports by species, product form and country or origin/destination. These statistics are discussed in the report and some further details and annual series data are given.

French Guyana

Title:	Rapport d'Activité (D.O.M.-T.O.M.) Exercise 1984
Sub-title:	Guyane
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	
Number of Pages:	76 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

French Guyana fisheries are discussed and some statistics on them are presented as follows: 1) the quantity of French and foreign artisanal sector catches in Guyane waters by vessel type and species group; 2) the number and type of artisanal fishing vessels; 3) the number and nationality of industrial vessels fishing in the Guyane EEZ; 4) the quantity of French and foreign industrial fishery sector catches by species group and year; 5) the quantity of exports by species group and year.

French Guyana

Title:	Bulletin Trimestriel (D.O.M.-T.O.M.)
Sub-title:	Guyane
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	December 1985
Number of Pages:	12 p. *
Volume/Issue Number:	No. 45
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Some fishery statistics on catches, vessels and exports are presented. Tables include: 1) the quantity of French and foreign industrial sector catches by main species; 2) the number of industrial sector fishing vessels; 3) the quantity of French and foreign artisanal catch by vessel type and main species; 4) the quantity of fish exports by main species.

French Polynesia

Title:	EVAAM Rapport d'activité
Sub-title:	Période de Juin 1983 à Juin 1984
Issuing Body:	Etablissement pour la Valorisation des Activités Aquacoles et Maritimes
Place of Publication:	Papeete
Date of Publication:	
Number of Pages:	49 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Alongside the administrative, financial and research accounts of this public organization, some statistics on the commercial fisheries and aquaculture are provided. Data presented include: 1) high seas industrial tuna catches of foreign fleets by month and species and some fishing effort data; 2) monthly catch of tuna by main species by the local tuna fleet; 3) monthly sales in the two main markets; 4) sales of cultured pearls by cooperatives; 5) some statistics on the production of farmed shellfish and on lagoon fisheries.

French Polynesia

Title:	Bulletin Trimestriel (D.O.M.-T.O.M.)
Sub-title:	Polynesie Française: Tahiti
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	March 1986
Number of Pages:	22 p. *
Volume/Issue Number:	No. 46
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Some fishery statistics are included in this statistical bulletin. The quantity of municipal market fish sales by main species and the quantity and value of pearl exports are given.

The Gambia

Title:	Yearbook of Fishery Statistics. The Gambia 1983
Sub-title:	
Issuing Body:	Fishery Department, Ministry of Water Resources and Environment.
Place of Publication:	Banjul
Date of Publication:	
Number of Pages:	55 p.
Volume/Issue Number:	36
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Statistics are provided on: 1) the number of fishermen and fishing assistants by stratum (the Atlantic coast, Lower river or Upper river) and nationality; 2) the quantities of landings for the industrial sector by fishing company and month with some limited data by species; 4) the quantities of landings for the artisanal fishing sector by landing site and month, by species and month, by species and year, and for each month by landing site and species; 5) the quantities and values of imports and exports are given by product type (expressed as a trade code), by country and by month, product type and country; 6) the "Artisanal Fishery Frame Survey" giving the numbers of fishermen, their canoes, fishing habits and gear by stratum and by landing site; 7) the "Artisanal Fisheries Development Programme" providing the catches and expenditure by month of the "2 tonne" boat (gill net) operation.

Germany, Federal Republic of

Title:	Hochsee-und Kustenfischerei, Bodenseefischerei. 1984
Sub-title:	
Issuing Body:	Statistisches Bundesamt
Place of Publication:	Wiesbaden
Date of Publication:	August 1985
Number of Pages:	31 p.
Volume/Issue Number:	
Series Title/Number:	Land -und Forstwirtschaft, Fischerei. Reihe 4.5
Frequency of Publication:	Annual
Notes:	

Annual statistics on catches and landings in German deep-sea, coastal and inland fishery sectors and on external trade in fishery products are presented. Tables include: 1) quantities and some values of marine catch by fishery sector, month, province, main species, fishing area and landing site; 2) the average unit value of marine landings by main species and month; 3) catch and effort statistics of the deep-sea fishery sector by fishing area; 4) the quantity of marine catch destined for fishmeal factories by month; 5) quantities of catches and landings by German vessels in foreign ports and foreign vessels in German ports by main species and country; 6) the quantities of imports and exports of fishery products by commodity and country of origin/destination; 7) the quantity and value of inland catch by month, area and species; 8) quantities and values of landings of the marine deep-sea and coastal fisheries subdivided by channel of disposition, species, month and fishing area; 9) the quantities and values of landings and quantities of catch by foreign vessels subdivided by channel of disposition and species; 10) the number and gross tonnage of deep sea vessels by port; 11) the number of coastal vessels by province.

Germany, Federal Republic of

Title:	Hochsee- und Kustenfischerei; Bodenseefischerei. Januar 1986
Sub-title:	
Issuing Body:	Statistisches Bundesamt
Place of Publication:	Wiesbaden
Date of Publication:	April 1986
Number of Pages:	12 p.
Volume/Issue Number:	
Series Title/Number:	Land- und Forstwirschaft, Fischerei. Reihe 4.5
Frequency of Publication:	Monthly
Notes:	

Monthly statistics of catches and landings in German deep-sea, coastal and inland fishery sectors are presented. Statistics include tables as follows: 1) the quantities and some values of marine catches and landings by type of processing by fishery sector, by species group and by region; 2) the quantities of marine landings by product form and species; 3) the quantities and values of marine landings of the deep-sea and coastal fishery sectors by type of disposition, species, area of catch and area of landing; 4) deep-sea fishing effort by area of catch; 5) for the coastal fishery sector the quantities and values of German catches and landings abroad and foreign catches and landings in Germany given by country/nationality of vessel; 6) the quantities of inland fishery landings by species. In the December issue an annual review of these statistics is presented.

Germany, Federal Republic of

Title:	Jaaresbericht Uber Die Deutsche Fischwirtschaft 1984/85
Sub-title:	
Issuing Body:	Bundesministerium für Ernagrund, Landwirtschaft und Forsten.
Place of Publication:	Bonn
Date of Publication:	December 1985
Number of Pages:	189 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistical tables are included in this publication which provides information on German fisheries and related industries. Statistics on German catches and landings are reproduced as they appear in "Hochsee-und Kustenfischerei; Bodenseefischerei". In addition to these other statistics on the German fish processing industry, foreign trade and the fishery fleet are presented. Tables include: 1) the quantity and value of production of the fish processing industry by product; 2) the structure of the fish processing industry; 3) the quantity and/or value of fishmeal and/or fish oil production, sales and imports and consumption by year; 4) the average prices of fishmeal and fish oil by quarter and year; 5) the quantity of herring, chilled/frozen fish, crustacean and mollusc sales by year; 6) retail fish prices by product and year; 7) the quantity of retail sales of frozen fish by product; 8) the quantity and price of imports and exports of fish products by country and product; 9) the number and gross tonnage of trawlers by tonnage class, age and year; 10) the number of motor cutter vessels by size, port, fishery sector, engine power and age; 11) the number of coastal fishing craft by port.

Ghana

Title:	Fisheries Department Annual Report for the Biennium 1979-1980
Sub-title:	
Issuing Body:	Department of Fisheries, Ministry of Agriculture.
Place of Publication:	Accra
Date of Publication:	
Number of Pages:	51 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on fish consumption, marine landings, fishing vessels, restocking and the fisher population are included. A fish balance sheet gives the total fish consumption in Ghana by year. The quantities and values of marine landings are given by type of fishery and species and by region and type of fishery. The number of vessels are allocated by type and year. Only an estimate of inland fishery production is given but the number of fingerlings released into dams and ponds in the restocking programme is given. Some results from the economic survey of Woija lake in terms of the number of villages, fishermen and fishing units are presented.

Greenland

Title:	Statistisk Arbog. (Kobenhavn) 1985
Sub-title:	
Issuing Body:	Danmarks Statistisk
Place of Publication:	Kobenhavn
Date of Publication:	1985
Number of Pages:	627 p. *
Volume/Issue Number:	Vol. 89
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the fisheries of Denmark, the Faroe Islands and Greenland are included in this statistical yearbook. Tables provided on Greenland fisheries are: 1) the number and tonnage of fishing vessels of more than 20 GRT by year; 2) the value of exports by product group; 3) the value of fish product sales; 4) the quantity of fish destined for industrial processing by type of processing.

Greenland

Title:	Kataallit-Nunaani. Piniartut Pisaannut Titartaaviit Latiterneri 1980
Sub-title:	
Issuing Body:	Ministeriet for Gronland.
Place of Publication:	
Date of Publication:	November 1983
Number of Pages:	77 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	
Notes:	Only issue received

Hunting statistics based on the Greenland list of game caught in Greenland and data on the purchase of products by the trade department are presented. Statistics include the catch of whales, seals, walrus, and other marine and terrestrial mammals and the yield of meat subdivided by species, sub-province, municipality and town.

Guadeloupe

Title:	Rapport d'Activité (D.O.M.-T.O.M.) Exercice 1984
Sub-title:	Guadeloupe
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	
Number of Pages:	97 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some data on fisheries in Guadeloupe are presented: 1) the quantity of artisanal catch given by species group and year; 2) the quantity of total fish consumption by species group, source (local/imports) and year; 3) the number and some details of fishermen and vessels; 4) the area under aquaculture and estimated aquaculture production.

Guatemala

Title:	Boletín de Pesca. 1984
Sub-title:	
Issuing Body:	Departamento de Pesca Maritima, Dirección Tecnica de Pesca y Alimentación, Dirección General de Servicios Pecuarios, Ministerio de Agricultura, Ganadería y Alimentación.
Place of Publication:	Guatemala City
Date of Publication:	No publication date
Number of Pages:	27 p.
Volume/Issue Number:	No.17
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Annual data on fishing effort, the fish catch made in Guatemalan Pacific waters and exports and consumption of fishery products are presented. Statistics include tables on: 1) the quantity of total industrial sector catch by month and species group and by species group, species and year; 2) the quantity of industrial sector fish catch by month and species; 3) fishing effort of the industrial sector vessels by month; 4) the quantity of average daily industrial sector prawn/shrimp catch and catch per trip by month and species; 5) the number of industrial sector vessels, hauls, repairs and landings by year; 6) the number of industrial vessels in service and catch of each species group by year; 7) industrial sector fishing effort and month catch by species group; 8) the quantity of industrial sector prawn/shrimp catch by month, species and count; 9) the quantity and value of prawn/shrimp exports by month; 10) the quantity of national consumption of fishery products by month and species group; 11) fuel consumption of the industrial fishing fleet; 12) specifications of the industrial fishing fleet, e.g. year of construction, vessel length, etc.; 13) the quantity of total fish and prawn/shrimp catch made by the fishery cooperatives by month, species group and species; 14) the activity of the fishery cooperatives in terms of number of fishing/non-fishing days, vessels in service, number of trips, etc.

Honduras

Title: Estadísticas Pesqueras (Tegucigalpa). 1984

Sub-title:

Issuing Body: Segretaria de Recursos Naturales, Dirección General de Recursos Naturales Renovables.

Place of Publication: Tegucigalpa

Date of Publication:

Number of Pages: 44 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Annual

Notes:

Annual statistics on the landings and sales of fish are presented. Quantities and values of production are given for both the artisanal and industrial fishing sectors by species group, month and for each species group by fishing sector and month. Shrimp and lobster landings are further subdivided by shrimp size and lobster weight. The quantities and values of domestic and external sales are given by fishing sector, species group and month. The number of vessels in the fishing fleet are given by year and fishing sector.

Hong Kong

Title:	Annual Departmental Report. 1984-1985
Sub-title:	
Issuing Body:	Department of Agriculture and Fisheries.
Place of Publication:	Hong Kong
Date of Publication:	
Number of Pages:	118 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some fishery statistics are included in this departmental report. Tables provide: 1) the number of fishing vessels by type and district; 2) the quantity of fish consumption by source of fish and product form; 3) the quantity and value of total production from all fishery sectors by sector, species group and disposition; 4) the quantity of total production by species group, disposition and gear/type of culture.

Hong Kong

Title:	Statistics on Fishery Production and Trade. 1982
Sub-title:	
Issuing Body:	Fisheries Development Division Agriculture and Fisheries Department.
Place of Publication:	Hong Kong
Date of Publication:	
Number of Pages:	76 p.
Volume/Issue Number:	
Series Title/Number:	Occasional Paper No. F56
Frequency of Publication:	Annual
Notes:	Publication ceased since 1983. Some of the statistics now appear in the Department of Agriculture and Fisheries Annual Report.

Annual statistics on Hong Kong fish production and external trade are presented. The quantities and values of fish production including local landings and in mainland China and yield from aquaculture are presented by fishery sector, species group, gear/type of culture, species and year. The quantity and value of fish supply and quantities of consumption are given by product form. Quantities and values of exports, imports and re-exports are allocated by commodity and by country and year.

Iceland

Title:	Hagtidindi
Sub-title:	
Issuing Body:	Hagstofu
Place of Publication:	Reykjavik
Date of Publication:	March 1986
Number of Pages:	16 p. *
Volume/Issue Number:	Vol. 71 No. 3
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Statistics on the quantity of Icelandic fish catch are given by species and channel of disposition. Data is for the catch made in the year so far and is compared to data from the corresponding period in the previous year. The value of exports, including fishery products, is given by commodity and by commodity and country of destination.

Iceland

Title:	Aegir
Sub-title:	
Issuing Body:	Fiskifelags Islands
Place of Publication:	Reykjavik
Date of Publication:	1986
Number of Pages:	72 p. *
Volume/Issue Number:	Tbl. 4
Series Title/Number:	
Frequency of Publication:	Semi-monthly
Notes:	

Fishery statistics on monthly catch rates and exports of fish products are published regularly in this fishery magazine. The following tables are presented: 1) the quantity of demersal fish catch given for each region by port and by port and individual vessel and number of crew; 2) the quantity, average price and value of frozen fish landed and sold abroad allocated by country and vessel; 3) preliminary data on the quantity of monthly landings catch and catch for the year so far given by species and region; 4) the quantity of total catch of fish for the month and the year so far compared to the previous year with subdivisions by species and channel of disposition and by species and type of vessel; 5) the quantity and value of exports given by country of destination and commodity group.

Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual series of fishery statistics are presented along with other statistics on Iceland and its economy. Tables include data on: 1) the quantity and/or values of fish catch with subdivisions by year, by species and year, by channel of disposition, by place of processing, by nationality of fishing vessel and year and with some data by fishing ground; 2) the quantity of trawler catch by year; 3) the quantity and value of demersal catch by year and by year and channel of disposition; 4) the quantity of non-trawler catch by gear and species; 5) the disposition of the herring and capelin catch; 6) the number of whales caught and quantity of oil production by year; 7) the quantities and values of marine products produced by product and year; 8) the prices of marine products destined for exports by product group.

India

Title:	Annual Report. 1981-82
Sub-title:	
Issuing Body:	Central Marine Fisheries Research Institute, Indian Council of Agricultural Research.
Place of Publication:	Cochin
Date of Publication:	
Number of Pages:	165 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

A review of fishery research projects and marine fishery sectors including statistics is presented. The quantity of marine landings for the calendar and financial year are given subdivided by state and species. Other catch and effort statistics for marine fishery sectors are given by fishery centre.

India

Title:	Statistics of Marine Products Exports. 1984
Sub-title:	
Issuing Body:	Marine Products Export Development Authority.
Place of Publication:	Cochin
Date of Publication:	January 1986
Number of Pages:	267 p.
Volume/Issue Number:	No. 16
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Marine product export statistics are provided. Quantities and values of exports are given by product, region and country of destination, and by port of shipment for the current and some previous years. Wholesale prices of products in US and Japanese markets are included. Landing statistics, obtained from the Ministry of Agriculture and the Central Marine Fisheries Research Institute, include the quantities of marine landings by year, by species and by state and of inland landings by state and year. International statistics reprinted from the FAO Yearbook of Fishery Statistics compare Indian exports and landings to those of other countries. Other data on exchange rates and freight rates is published.

India

Title: Marine Products Export Review. 1981 - 1982

Sub-title:

Issuing Body: Marine Products Export Development Authority

Place of Publication: Cochin

Date of Publication: June 1981

Number of Pages: 32 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Annual

Notes:

A detailed analysis of the trends and structure of fish exports of India is presented. Quantities and values of exports expressed in real and/or percentage terms are given: 1) for the current and the previous year by country of destination, by port of shipment, by coastal region and by product; 2) for the past twenty years by year; 3) for the past ten years by product; 4) for the past five years by product and major market country; 5) for the past three years by month. Quantities and values of shrimp imports into Japan and the USA are also published.

Indonesia

Title:	Fisheries Statistics of Indonesia 1983
Sub-title:	
Issuing Body:	Direktorat Jenderal Perikanan Departemen Pertanian
Place of Publication:	Jakarta
Date of Publication:	1985
Number of Pages:	97 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on all sectors of Indonesian fisheries except pearl culture and capture of ornamental fish are covered. Retrospective data mostly over the past seven years include the quantities and values of total catch by fishery sector, marine and inland production by species, aquaculture production in inland waters by species, and the numbers of marine fishing establishments and vessels. For the issue year detailed statistics are given for each fishery sector. 1) Marine Fisheries: statistics for each coastal area and province give the number of fishing establishments by size of boat, the number of fishermen, the number of boats by size, the number of fishing units by type of gear, values and/or quantities of catches by species, gear and quarter, the catch utilization of catches by channel of disposition, quantities of production of fish commodities by product type. 2) Inland Fisheries: statistics are similar to those for marine fisheries, but with no division by coastal area. 3) Aquaculture: the number of fish culture households are given by type of culture, by size of management, by province and by species of fish seed planted; the area under culture is given by type of culture and province; quantities and values of production for each subsector of aquaculture are given by species and province and by quarter and province. Some preliminary statistics for the following year are published.

Iran

Title: Statistical Yearbook 1983/84. (1362)

Sub-title:

Issuing Body: Statistical Centre

Place of Publication: Tehran

Date of Publication: 1983/84 (1362)

Number of Pages: 778 p. *

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Annual

Notes:

Iranian fishery statistics presented include tables on: 1) the quantity of Northern fisheries catch of non-caviar fish, caviar fish and caviar obtained by year; 2) the quantity of Northern fishery domestic and export sales by year; 3) the quantity and disposition of Southern fisheries catch by year; 4) the quantity and value of total exports of fishery products by product group and year; 5) retail prices of shrimp by size of shrimp; 6) the quantity and value of imports and exports of fish and crustaceans by year; 7) the quantity and value of imports of fishery products by product and year.

Ireland

Title:	Fisheries Annual Report of the Ministry for Fisheries and Forestry for 1982
Sub-title:	
Issuing Body:	Department of Fisheries and Forestry
Place of Publication:	Dublin
Date of Publication:	1984
Number of Pages:	70 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Before 1982 title was: "Sea and Inland Fishery Report"

In addition to a report on the work of the Department of Fisheries and Foresty, this annual report includes a statistical account of both sea and inland fisheries in Ireland. Statistics for sea fisheries include the quantities and values of landings by species, by port and by species group and of imports and exports by type of product. Statistics on average prices, fishing craft and personnel are included. Quantities and values of inland catches are given by species, by gear and by fishery region.

Ireland

Title:	Statistical Abstract of Ireland. 1981
Sub-title:	
Issuing Body:	Central Statistical Office
Place of Publication:	Dublin
Date of Publication:	1985
Number of Pages:	362 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery statistics included are: 1) the quantities and values of sea and inland fishery landings by species and year; 2) the number of fishermen by year; 3) the number of sea fishing vessels by year; 4) the number and type of fishing licences by year; 5) the value of imports and exports of fish, crustacean and mollusc preparations.

Ireland

Title:	Irish Statistical Bulletin. March 1986
Sub-title:	
Issuing Body:	Central Statistics Office
Place of Publication:	Dublin
Date of Publication:	March 1986
Number of Pages:	99 p. *
Volume/Issue Number:	Vol. 61, No. 1
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Occasionally the quantities and values of marine fish landings by species appear in this publication.

Israel

Title:	Israel Fisheries in Figures. 1982.
Sub-title:	
Issuing Body:	Department of Fisheries, Ministry of Agriculture.
Place of Publication:	Tel Aviv
Date of Publication:	1983
Number of Pages:	43 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Quantities and values of catch (landed weight) are given by fishery sector, by month and fishery sector. More detailed statistics on catches and fishing effort for each fishery sector are given by species, month, year and gear. Some fish consumption statistics are presented. Statistics on fish culture include the numbers of farms, area of farms and quantity of production by species and region. Data on the numbers of fishermen, fishing licences and vessels are given by year; numbers of fishermen and vessels by area and method of fishing.

Italy

Title:	Annuario Statistico della Zootecnia, Pesca e Caccia. 1981
Sub-title:	
Issuing Body:	Istituto Centrale di Statistica
Place of Publication:	Roma
Date of Publication:	1982
Number of Pages:	135 p. *
Volume/Issue Number:	Vol. 22
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on marine and freshwater fisheries are included alongside those on livestock and game. Quantities of marine production are given by region and species group, coast and species group, species and coast and for each region by species and month. Average unit prices of fish products in selected markets are given by species and month and by species and region. Quantities of freshwater production are given by region and species group. The number of fishing vessels, their gross tonnage and horse power are allocated by several divisions including coastal area, tonnage group, horsepower group, gear and vessel age. The quantities and values of imports and exports are presented by species group and product form. Retrospective data on production are given by species group.

Italy

Title:	Notiziario
Sub-title:	Statistiche forestali, della pesca, caccia e cooperazione
Issuing Body:	Istituto Centrale di Statistica

Date of Publication:	October 1987
Number of Pages:	2 p.
Volume/Issue Number:	Anno I N.7
Series Title/Number:	Statistiche dell'attivitá produttiva Serie 2 - Foglio 21 bis
Frequency of Publication:	Monthly
Notes:	

For some broad groups of marine species the quantities landed in the month so far, current and accumulated, are compared to the previous year.

Italy

Title:	Andamento dell'Industria Conserviera Ittica. 1985
Sub-title:	Produzione, importazione, esportazione, tonno, sardine, acciughe, vongole, ed altre specie.
Issuing Body:	Associazione Nazionale Conservieri Ittici e delle Tonnare
Place of Publication:	Roma
Date of Publication:	April 1986
Number of Pages:	55 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

A summary of the quantities and values of Italian imports and exports of fresh/chilled/frozen fish, shellfish, molluscs, salted/smoked fish and canned fish by species and Italian production of preserved fish products is presented. For the main species - tuna, sardine, anchovy, mackerel and other selected species - the quantities and values of imports and exports by product form, country of origin/destination and year are given.

Japan

Title:	Gyogyo Yoshokugyo Seisan Tokei Nenpo, Showa 60 Nen [Japanese Yearbook of Fishery Statistics, Catch and Aquaculture Production, 1985]
Sub-title:	
Issuing Body:	Statistics and Information Dept., Ministry of Agriculture, Forestry and Fisheries
Place of Publication:	Tokyo
Date of Publication:	December 1986
Number of Pages:	288 p.
Volume/Issue Number:	No. 129
Series Title/Number:	Fisheries Statistics No.13
Frequency of Publication:	Annual
Notes:	Text in Japanese

Annual statistics on Japanese capture and culture fishery activities are presented by environment. 1) Statistics on the marine capture fisheries include: quantity of catch by fisheries, by species, by fisheries and species by year; for the year of issue the quantity of catch by species, allocated to type of fishery and, within each fishery, to tonnage classes of fishing vessels. Effort data include the number of cruises and days spent fishing by fisheries and fleet arranged in tonnage classes. Catch and effort data for each major fishery are also subdivided by sea areas and by prefecture. Data on bait fish, seed fish and marine mammals are included. 2) Statistics on mariculture include: quantities produced by type of culture and by species by year; for the year under review, mariculture production allocated by species to sea areas and prefectures; for each major species area under cultivation, number of seedfish and quantity of feed used, and quantities produced by sea areas/prefectures. 3) Statistics on inland fisheries and aquaculture include global data by fishery and aquaculture type, and detailed statistics by sector by year. For inland capture fisheries, statistics include the amount caught for each species in the year of issue, allocated by prefecture, by major rivers and lakes; for aquaculture, production by prefecture and species is provided as well as statistics on each main farmed species. Separate statistics on the production from the major lakes defined by Fisheries Law and to culture of freshwater pearls and mother-of-pearl are also presented. 4) A section on values, provides current annual data and indices by capture and culture, by species, by environment, by year. For the year of issue value data of marine fish are subdivided by fisheries and by vessels arranged in tonnage classes; for fisheries and aquaculture values are allocated by sea areas and prefectures. Historical catch data, 1925 to the year of the title, as well as world reference tables and Japanese imports and exports of fishery products, are also presented.

Japan

Title:	Gyogyo Yoshokugyo Sui-ikibetsu Seisan Tokei, Showa 59 Nen [Fisheries and Aquaculture Statistics by Fishing Areas, 1984]
Sub-title:	
Issuing Body:	Statistics and Information Department, Ministry of Agriculture, Forestry and Fisheries
Place of Publication	Tokyo
Date of Publication:	March 1986
Number of Pages:	69 p.
Volume/Issue Number:	No.37
Series Title/Number:	Fisheries Statistics No.6
Frequency of Publication:	Annual
Notes:	Text in Japanese

Statistics on catches by species are presented according to the FAO Major Fishing Areas for Statistical Purposes. For each major species Japanese catch in quantity for four years, including the year of issue, is allocated to each major fishing area. For the year under review catch statistics by individual species are presented by area and by fisheries. World comparisons and the definition of Japanese fisheries and species/groups are also provided.

Japan

Title:	Suisanbutsu Ryutsu Tokei Nenpo, Showa 58 Nen [Annual Statistical Report on the Marketing of Fish Products, 1983]
Sub-title:	
Issuing Body:	Statistics and Information Department, Ministry of Agriculture, Forestry and Fisheries
Place of Publication:	Tokyo
Date of Publication:	December 1984
Number of Pages:	345 p.
Volume/Series Number:	No.124
Series Title/Number:	Fisheries Statistics No.5
Frequency of Publication:	Annual
Notes:	Text in Japanese

Annual statistics on the structure and economics of the Japanese fishing industry are presented. The statistical section includes time series of quantities and prices, by species at 51 major landing ports, at six major wholesale consuming markets and at ten large retail city markets; indices of prices by species by year in the same detail; prices of fishery products by product type at producing and consuming markets; total quantities of fishery products by species produced on land and on board; average monthly stocks of frozen products. For the year of issue annual and monthly averages by item, in quantity and value surveyed at: a) 51 major landing ports; b) at six major wholesale and ten major retail markets; c) for freshwater fish, at Tokyo and Osaka; disposition of catches landed at 51 major ports by item, by fishing port. Statistics on products processed on land by quantity by item are subdivided by prefecture, by city and include numbers of enterprises; products processed on board are allocated by type, canned products by prefecture; for frozen products, data include the number of factories and monthly cold storage capacity and amount of stocks by major species, by city/item and by item/city. The section on supply and consumption includes supply by product, imports and exports by item, households expenditure for fishery products and price indices for urban areas and agricultural areas.

Japan

Title:	Fisheries Statistics of Japan 1984
Sub-title:	
Issuing Body:	Statistics and Information Department, Ministry of Agriculture, Forestry and Fisheries.
Place of Publication:	Tokyo
Date of Publication:	March 1986
Number of Pages:	64 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on the Japanese fishing industry in terms of production, marketing, fishery establishments, vessels and workers are presented. Quantities and values of catches are allocated by fishery sector and year, by species group and year (quantities only), by species and year, by fishery sector/gear and year and for major species by gear and year. The structure of the fishing industry over the last five years is covered in terms of numbers of fishing establishments, fishery workers by age and sex and numbers and gross tonnage of fishing boats by boat size. Some marketing statistics, such as the quantity and prices of landings at fishmarkets by commodity and of arrivals at Tokyo market by commodity are included. The quantities of Japanese production of processed fishery products are given by product. Values of imports and exports of fishery products are allocated by country and by commodity. Disposition of fish products is given by channel of disposition and type of product. Other socio-economic data on fishing establishments, fish consumption in Japan and reference tables on world catches are provided.

Japan

Title:	Monthly Statistics of Agriculture, Forestry and Fisheries. January 1986
Sub-title:	
Issuing Body:	Statistics and Information Department, Ministry of Agriculture, Forestry and Fisheries.
Place of Publication:	Tokyo
Date of Publication:	
Number of Pages:	110 p. *
Volume Issue/Number:	86/1
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Fishery statistics on landings, prices and international trade are included with those on agriculture and forestry. The quantities and average landing market price of landings and the quantities and average market price of arrivals at Tokyo market are given for fresh and frozen fish by species. Retail prices of fishery products are given by product. Trade statistics include the quantities and values of Japanese imports and exports by commodity group and by major commodity. All statistics are given by month for the previous twelve months and by year for the previous three years.

Japan

Title: Abstracts of Statistics on Agriculture, Forestry and Fisheries: Japan. 1984

Sub-title:

Issuing Body: Statistics and Information Department, Ministry of Agriculture, Forestry and Fisheries.

Place of Publication: Tokyo

Date of Publication: March 1985

Number of Pages: 107 p. *

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Annual

Notes:

Tables on fishery statistics provide: 1) the number and type of fishery establishments; 2) the number and income of fishing households and personnel; 3) the number, gross tonnage and power of marine fishing vessels by type of vessel; 4) the number of marine vessels by tonnage class; 5) the number of fishing ports; 6) the number and capacity of ice and refrigeration plants; 7) the quantity of fish production by fishery sector and by species; 8) the quantities of production of processed fishery products by product; 9) the quantity and values of imports and exports by commodity group and by main commodities; 10) fish balance sheets showing the domestic supply of fish and fish products in Japan.

Kenya

Title:	Fisheries Statistical Bulletin. 1983
Sub-title:	
Issuing Body:	Fisheries Department, Ministry of Tourism and Wildlife.
Place of Publication:	Nairobi
Date of Publication:	1984
Number of Pages:	41 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

The state of marine and freshwater fisheries and aquaculture in Kenya are discussed. Statistics on marine and freshwater catches and international trade are presented. Tables provide: 1) the number of marine and freshwater fishermen and fishing vessels; 2) the quantity and value of marine and freshwater catches subdivided by species group, species, area (lake, dam, coastal area, etc.), month and year; 3) average fish prices by main species and area; 4) statistics for main fishing areas (marine area, Lake Victoria, Lake Baringo, Lake Turkana) such as the quantity and value of catch by species, month and channel of disposition, average fish prices and fish sales; 5) the quantity and value of exports and imports by commodity group and country.

Korea, Republic of

Title:	Statistical Yearbook of Agriculture, Forestry and Fisheries. (Seoul). 1984
Sub-title:	
Issuing Body:	Agriculture and Fisheries Statistics Office, Ministry of Agriculture and Fisheries.
Place of Publication:	Seoul
Date of Publication:	December 1984
Number of Pages:	435 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	From 1984 this publication summarises data from two different publications: "Yearbook of Agriculture and Forestry Statistics" and "Yearbook of Fishery Statistics"

Statistics on fishery households, fishing vessels, fish catches, processed products and exports are presented. Tables include: 1) the number of fishery households and fishermen; 2) the number of fishing vessels subdivided by province, type, tonnage class, material of construction, gear, engine type, and age group; 3) quantities and values of catch subdivided by fishery sector, species group, species, gear and fishing area; 4) the number, quantity and value of whales caught; 5) quantities and values of shallow sea, inland and inland culture production subdivided by species, species group and province; 6) the quantity and some values of production of processed fishery products subdivided by product group, month, product and province; 7) the quantity and value of exports by commodity type, country and year.

Kuwait

Title:	Statistical Bulletin of Fishery Resources. 1984
Sub-title:	
Issuing Body:	Central Statistical Office, Ministry of Planning.
Place of Publication:	Kuwait
Date of Publication:	
Number of Pages:	106 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on fish supplies reaching Kuwait fish markets, i.e. fish from local fisheries and imported fish are presented. Statistics are provided for: 1) the retail market; 2) the wholesale market. The quantities, values and average prices of imported fish and local fish are given by species and month, and as a total figure (imported fish plus local fish) by species and month, by species and quarter and by species and year. Average, minimum, medium and maximum retail and wholesale fish prices are given by species and quarter. Other statistics give the quantities, values and average prices of fish caught by Kuwait fishing companies subdivided by species, month and quarter.

Malaysia

Title:	Annual Fisheries Statistics: Malaysia. 1983
Sub-title:	
Issuing Body:	Fisheries Management Information System Unit, Fisheries Department, Ministry of Agriculture.
Place of Publication:	Kuala Lumpur
Date of Publication:	November 1984
Number of Pages:	256 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual

Notes:

Statistics cover the fishery activities in Peninsular Malaysia, Sabah and Sarawak. Statistics on the marine fisheries of Peninsular Malaysia include: 1) the number of fishermen; 2) the number of fishing boats by state, coast, tonnage class, length, horsepower, gear group and type of boat; 3) the number of fishermen and boats by fishery district; 4) the number of fishing gear by state and fishery district; 5) fishing effort expressed as the number of fishing days, trips and hauls given by type of gear and state; 6) the quantities of landings by year (values of landings also given), state month, gear group, species, month and coast; 7) landings and fishing effort of purse seine vessels and trawlers by tonnage class and species for each state; 8) wholesale and retail values of landings and market prices by species and month; 9) the disposition of landings by channel and state; 10) the quantities of production of processed products by state and product; 11) quantities and values of imports and exports by commodity type, by commodity and country and by country. Statistics on aquaculture in Peninsular Malaysia provide: 1) the number and area of culture systems by type of culture and state; 2) the number of culturists by type of culture and state; 3) quantities and values of production subdivided by state, culture system and species; 4) average wholesale and retail market prices and values of market sales are given by state and species and/or month and species; 5) production of and distribution from government and private hatcheries subdivided by state and species or by hatchery and species. Statistical data for the States of Sabah and Sarawak is not as comprehensive as that of Peninsular Malaysia. The number of boats and fishermen and the quantities and values of landings and fishery commodity imports and exports are presented but not in such great detail.

Malaysia - (Sarawak)

Title:	Perangkaan Pertanian Sarawak. 1984
Sub-title:	
Issuing Body:	Agricultural Economics Unit, Department of Agriculture.
Place of Publication:	Kuching, Sarawak
Date of Publication:	1985
Number of Pages:	134 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some fishery statistics of Sarawak are presented in this publication. Tables include: 1) the area and number of fish ponds constructed by division and year and by division and district; 2) the number of fish fry distributed by species; 3) the number of applicants issued with fish fry; 4) the quantity and value of international trade in selected product groups by year; 5) monthly average retail fish prices by division and area.

Maldives, Republic of

Title:	Basic Fishery Statistics. 1984
Sub-title:	
Issuing Body:	Ministry of Fisheries
Place of Publication:	Male
Date of Publication:	
Number of Pages:	16 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Provisional statistics on fishermen, vessels, catches and exports are presented. The numbers of fishermen by atoll and the number of vessels by atoll and vessel type are given. Quantities of catch are allocated by species/species group, by disposition, by atoll and month. The number of fishing trips and corresponding quantities of catch are given by vessel type. Quantities and/or values of exports are given by item, by commodity and by country. Summaries from Customs' reports of the quantities of stocks, purchases and exports for that year are given. Commercial prices by species/commodity are also included.

Malta

Title:	Abstract. An Annual Review of Main Statistical Data on Demography, Labour, Industry and Other Economic, Financial and Social Subjects, 1985.
Sub-title:	
Body:	Central Office of Statistics
Place of Publication:	Valletta
Date of Publication:	1986
Number of Pages:	254 p. *
Volume/Issue Number:	No. 39
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery statistics included in this publication provide the number of full and part-time fishermen by age group and gender; volume of landings of fish by species for a series of years, and monthly landings for the most recent year, monthly supplies of fish by broad groups of products; monthly wholesale and retail values of landings by species for the most recent year available; average monthly retail prices by species; number of licenced fishing boats by main types for a series of years.

Martinique

Title:	Rapport d'Activité. (D.O.M.-T.O.M.) Exercice 1984
Sub-title:	Martinique
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	
Number of Pages:	96 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fisheries and aquaculture in Martinique are discussed. Statistics presented give: 1) the number of fishermen; 2) the composition of the fishing fleet by tonnage class; 3) the quantity and disposition of the deep-sea fishery catch by year.

Mauritania

Title:	Bulletin du Centre National de Recherches Oceanographiques et des Pêches. Fascicule 2
Sub-title:	
Issuing Body:	Centre National de Recherches Oceanographiques et des Pêches.
Place of Publication:	Nouadhibou
Date of Publication:	July 1984
Number of Pages:	173 p.
Volume/Issue Number:	Vol. 12
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Only Fascicule 2 contains statistics

Annual statistics on catches made in the Mauritanian EEZ by the industrial and artisanal fishery sectors and some statistics on international trade are presented. For the industrial sector quantities of monthly catch are subdivided by fishery zone, species, method of fish preservation and nationality of vessel. Average catch per day is given by fishing zone, species and category of vessel. The names, tonnage and power of vessels which fished in the EEZ are listed according to power. For the artisanal sector catches are subdivided by landing site, species, month and gear. The number of vessels, motors, and fishery population are given by area. Trade statistics include the quantities or values of exports by country of destination, product type and month.

Mexico

Title:	Anuario Estadístico de Pesca (Mexico). 1984
Sub-title:	
Issuing Body:	Dirección General de Informatica y Estadística. Secretaria de Pesca
Place of Publication:	México
Date of Publication:	November 1984
Number of Pages:	338 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Previous titles: "Explotación Pesquera Nacional" and "Estadísticas Basicas de la Actividad Pesquera Nacional"

Statistics on Mexican fisheries in terms of fishing vessels, fishing gear, fishery population, fishing permits, catches, landings, industrial production, marketing and consumption are presented. Statistics include tables on: 1) the number of fishing vessels subdivided by coastal area and state, type of fishery, fishery subsector (social/public/private) gross tonnage class, length, material of construction and ownership; 2) the number of fishing gear subdivided by coastal area, state, type and fishery sector; 3) the fishery population by coastal area, state, fishery sector, field of employment and age group; 4) the number of fishery permits by coastal area, state, species and sector; 5) detailed statistics on the quantities of catches and landings of marine and freshwater fish, crustaceans, molluscs, aquatic animals and plants subdivided by species, fishery sector, coastal area, state, harbour office, food or industrial use and month; 6) aquaculture yield by species group and species; 7) the number and capacity of processing plants, quantities of landings processed and product obtained for each type of processing plant by coastal area and state; 8) quantities of landings processed and product obtained subdivided by coastal area, state, type of processing, fishery subsector and species; 9) the quantities of available fish products by product form and species; 10) landing, wholesale and retail values/prices subdivided by product form, species group, species, coastal area, state and town; 11) the quantity of fish products transported within and out of Mexico subdivided by product form, species, state of origin/destination and country of destination (exports only); 12) the quantities and values of imports and exports by species group and by product form and species; 13) the quantities of total and per capita consumption by species group and by state. Other statistics include annual series of fisheries data, international fishery statistics and financial/economic statistics.

Mexico

Title:	Boletín Mensual de Información Económica
Sub-title:	
Issuing Body:	Secretaría de Programación y Presupuesto, Instituto Nacional de Estadística, Geografía y Informatica
Place of Publication:	Mexico
Date of Publication:	1985
Number of Pages:	145 p. *
Volume/Issue Number:	Vol.11, No.12
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Only two statistical tables on fish catch are included in this publication. The quantity of fish catchis subdivided by disposition, month and species for: 1) landed weight, and 2) traded weight.

Morocco

Title:	Resultats de la Pêche Maritime Marocaine. 1983
Sub-title:	
Issuing Body:	Service des Statistiques et Centre de Calcul, Institut Scientifique des Pêches Maritimes, Office National des Pêches.
Place of Publication:	Casablanca
Date of Publication:	
Number of Pages:	29 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on marine fish landings in Morocco are presented. Quantities and values of landings are given by species and port for all ports, Atlantic ports and Mediterranean ports by species and month. The disposition of landings (quantities) is given by channel of disposition, species and port and by channel of disposition and month. A comparative table of quantities and values of landings for three years is given by fishery sector. The publication does not cover landings of the Las Palmas (Canary Islands)-based Moroccan fleet.

Mozambique

Title:	Informaçao Estatística. 1975-1984.

Issuing Body:	Direção Nacional de Estatística, Commissão Nacional do Plano
Place of Publication:	Maputo
Date of Publication:	1985
Number of Pages:	96 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	Historical data for 1961-75 are available in the 1976 publication of the Direçcao General da Pesca, Ministerio da Indústria e Comércio "Estadísticas Basicas de Pescas de Moçambique".

A summary of economic and social statistics for the years 1975-1984 is presented. Data on fisheries include: 1) the quantity of production of fish and prawn by year; 2) the value of state sector product by year; 3) the quantity of fish supplies to the population by year; 4) the quantity and value of imports and exports of prawn by year.

The Netherlands

Title:	Statistiek van de Visserij 1980
Sub-title:	
Issuing Body:	Centraal Bureau voor de Statistiek
Place of Publication:	Zeist
Date of Publication:	1982
Number of Pages:	28 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Publication interrupted

Annual statistics on Dutch fisheries are presented and compared with those of the previous year. Some retrospective figures are given. The numbers and gross registered tonnage of fishing vessels are given by type of craft and engine capacity. The numbers of fishing vessels, trips, days of absence and quantity and values of landings are given for trawlers, luggers and cutters by gear and engine capacity. The quantities and values of landings are given: 1) in Dutch ports by Dutch and foreign fishing vessels; 2) by Dutch vessels landing in foreign ports by country; 3) in Dutch ports by species and type of disposition; 4) for fish destined for human consumption by species and size; 5) for sea fisheries and inshore fisheries by fishing area, species groups and major species; 6) for Lake IJssel fisheries by species and port of landing; 7) for sea and inshore fisheries by port of landing and species group; 8) for frozen fish by port of landing; and 9) for shrimps by port of landing. Other economic statistics on Dutch fisheries and fish canning factories such as a price index of fish by species and socio-economic statistics on fish consumption are included. Quantities and values of imports and exports are given by commodity group.

The Netherlands

Title: Maandcijfers van de Visserij. August 1982

Sub-title:

Issuing Body: Centraal Bureau voor de Statistiek

Place of Publication: 'S-Gravenhage

Date of Publication:

Number of Pages: 15 p.

Volume/Issue Number: August 1985

Series Title/Number:

Frequency of Publication: Monthly

Notes:

Fishery statistics on landings, fishing effort, imports and exports are presented. Most of the statistics are given for the month of issue and as a cumulative figure for the year. Quantities and values of landings in Dutch ports are given: 1) by species and by type of disposition; 2) for fresh fish for human consumption by species and size; 3) for the sea and inshore fisheries by port and species group; 4) for the sea fisheries by species group, major species and principal fishing area; 5) for frozen fish destined for human consumption by species and port of landing; and 7) for Lake IJssel by port of landing and species. The number of voyages, days at sea and catch per day of fishing vessels are given by gear. Quantities and values of imports and exports of fish and fish products are presented by commodity group.

New Caledonia

Title:	Annuaire Statistique. 1983
Sub-title:	Resultats de l'Année 1982
Issuing Body:	Service de la Statistique
Place of Publication:	Noumea
Date of Publication:	1983
Number of Pages:	179 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some tables of fishery statistics are included: 1) the number, type, gross tonnage and horsepower of marine vessels; 2) the quantity of fish production by species; 3) the quantity of fish imports by commodity type.

New Caledonia

Title:	Rapport d'Activité. (D.O.M.-T.O.M.) Exercice 1984
Sub-title:	Nouvelle Caledonie
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	
Number of Pages:	101 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

The artisanal and industrial fisheries and aquaculture in New Caledonia are discussed. For the artisanal sector the number and type of vessels and an estimate of fish catch allocated by species group are provided. For the industrial sector the quantities of catch by different companies are given. The quantity of production (yield) of aquaculture farms is given.

New Zealand

Title:	New Zealand Fishing Industry Board. Report for the Year ending 31 March 1985
Sub-title:	
Issuing Body:	New Zealand Fishing Industry Board
Place of Publication:	Wellington
Date of Publication:	1985
Number of Pages:	46 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery statistics included in this report are mainly for the twelve months ending in the previous December. Statistics on the imports and exports of fisheries products are presented. The quantities and values of exports are given by species group and product type and by product type and species. Values of exports are given by species group and country of destination. Quantities and values of imports are given by main product type for the last five years and by product type. A summary of the quantities of fish production (catch) in the New Zealand 200 mile EEZ by foreign and domestic vessels is presented.

New Zealand

Title:	Catch statistics for foreign and domestic commercial fishing in New Zealand waters, January-December 1983.
Sub-title:	
Issuing Body:	Fisheries Research Division, Ministry of Agriculture and Fisheries.
Place of Publication:	Wellington
Date of Publication:	1986
Number of Pages:	150 p.
Volume/Issue Number:	
Series Title/Number:	Fisheries Research Division occasional publication. Data series, no.21.
Frequency of Publication:	Irregular
Notes:	Title varies.

Fishery statistics published in this series varies. Those included in this issue are summarized here. Statistics on catches and landings of both foreign and domestic vessels which fished in New Zealand waters are presented. The first part gives statistics on the quantity of catch of domestic and foreign vessels (subdivided by country) with tables by: 1) species; 2) fishing gear; 3) month and species group; 4) area of New Zealand EEZ; 5) month and area; 6) area and main species; and 7) area, main species and month. The second part presents statistics on domestic fishing. Statistics include the quantities of: 1) landings with subdivisions by species group and year, by species and gear, by species and region of landing, by region of landing and species group, by gear and vessel tonnage group, by gear and vessel length, and by species and month; 2) landings of main species, the number of fishing vessels and vessel days by gear; 3) catch by fishing area and species group; 4) catch and fishing effort statistics for each fishing area by gear and main species; 5) catch of main species by fishing area and month; 6) main species of shellfish landed by region and month. Other data include the number of fishing vessels by region of domicile and gear and the number of shore permits granted.

Number of Pages:	75 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	Only issue available. Superseeded by Boletín Estadístico Pesquero

Statistics on fish catches, landings, domestic and international trade, consumption and shrimp and lobster fleets in Nicaragua are presented. A list of fishing companies and their activities is provided. Retrospective statistics up to 1979 give: 1) the quantities of total landings and landings direct to fish processing plants by year and species group; 2) shrimp and lobster landings and landings per unit effort by region and coastal region; 3) food balance sheets showing food consumption; 4) the quantity and value of exports of fishery products by year and product group. For 1980 statistics include data on: 1) the quantity of catch landed at processing plants and quantity processed by name of plant, species group and month; 2) the quantities and values of domestic trade by month; 3) domestic market shellfish sales by company, product group and month; 4) quantities and values of monthly exports of fishery products by product group, by company, by coastal area and species group and by country of destination; 5) average monthly prices by product group; 6) the number of vessels, fishing days, catch and catch per unit effort in the shrimp and lobster fleets by month.

Title:	Boletín Informativo
Sub-title:	Analisis del Sub-sector Pesquero antes del Triumfo Revolucionario
Issuing Body:	Departamento de Ecosistemas Acuáticos, Instituto Nicaraguense de Recursos Naturales y del Ambiente.
Place of Publication:	
Date of Publication:	April 1980
Number of Pages:	20 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	Sub-title varies. Only issue available

The state of pre-1979 Nicaraguan fisheries (1969-1978) in terms of the fleet, fish production, processing plants, international trade and national fish consumption is discussed. Statistics presented include tables on: 1) the number of vessels in the industrial fleet by year and by ocean and species group caught; 2) the quantities of fish production by year and species group, and by ocean, year and species group; 3) the numbeer, type and capacity of processing plants by location; 4) the values of imports and exports by year; 5) a balance sheet showing national fish consumption by year.

Nigeria

Title:	Fisheries Statistics of Nigeria
Sub-title:	
Issuing Body:	Department of Fisheries
Place of Publication:	Lagos
Date of Publication:	1980
Number of Pages:	33 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	
Notes:	Only issue available

Statistics on the nominal catch of fish from the artisanal coastal/brackish/inland water and the industrial coastal/distant water fishery sectors are presented. Quantities of catch are given: 1) by fishery sector; 2) for the artisanal sector by state; 3) for the total inland/brackish/coastal fishing sectors by species; 4) for trawl fishing by species; 5) for distant water fishing by species. The number of inshore trawlers, artisanal canoes and fishermen are given.

Norway

Title:	Fiskeristatistikk. 1983
Sub-title:	
Issuing Body:	Statistisk Sentralbyraa
Place of Publication:	Oslo
Date of Publication:	June 1985
Number of Pages:	179 p.
Volume/Issue Number:	
Series Title/Number:	Norges Offisielle Statistikk 3550
Frequency of Publication:	Annual
Notes:	

Statistics on fishermen, fishing vessels, catch, production and international trade are presented. Tables provide statistics on: 1) the number of fishermen by year and country; 2) the number of fishing vessels subdivided by year, type, length, country and year of construction; 3) the gross tonnage of vessels by type of vessel and country; 4) trawl, deep-water trawl and purse seine licences; 5) the quantities and values of catch subdivided by year, disposition of catch, main species group, species, landing condition of fish, month of landing, fishing ground, type of vessel, landing municipality and country, country of vessel registration and cooperative trading the fish; 6) the number of small whales and seals caught and the quantity and value of production from them; 7) the quantity of production of and number of fishfarming units by year and country; 8) the number of fish processing plants and people employed in them by type of plant; 9) the quantity and values of production of fishery products by type of processing and product group; 10) the quantities and values of exports and values of imports by year, country of origin/destination and commodity group; 11) other economic and financial statistics; 12) fish stocks.

Norway

Title:	Arsberetning Vedkonmende Norges Fiskerier. 1984
Sub-title:	Fiskerflaten
Issuing Body:	Fiskeridirektoratet
Place of Publication:	Bergen
Date of Publication:	December 1985
Number of Pages:	42 p.
Volume/Issue Number:	No. 7
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Sub-title varies

Detailed statistics on the Norwegian fishing fleet are presented. The number of registered vessels are subdivided by year, type, material of construction, length, county, year of construction and tonnage class. The gross tonnage of the fleet is given by country, type of vessel, length and tonnage class. The number of engines in the fishing fleet is given by horsepower and length and by year of construction and horsepower. Average age of engines is given by HP group.

Norway

Title:	Fiskets Gang.
Sub-title:	
Issuing Body:	Fiskeridirektoren

Date of Publication:	1986
Number of Pages:	449-484 *
Volume/Issue Number:	15 uke 30
Series Title/Number:	
Frequency of Publication:	Bi-monthly
Notes:	

Data on Norwegian fisheries are included in this publication. Statistics may include the following: 1) the quantity and value of Norwegian fisheries catch for the latest data month and year so far, by species and by sales organization; 2) the quantity of Norwegian fisheries catch so far that by, by species and disposition, and by species and sales organization; 39 the catch disposition of herring, sprat and mackerel catch by species. More detailed statistics may be presented for individual sales organizations.

Oman

Title:	Statistical Yearbook 1405 A.H., 1984 A.D.
Sub-title:	
Issuing Body:	Directorate General of National Statistics Development Council, Technical Secretariat
Place of Publication:	
Date of Publication:	November 1985
Number of Pages:	382 p. *
Volume/Issue Number:	13
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery data presented include the total quantity of fish caught by traditional fishermen and industrial fishing companies, statistics by area of the number of fishing licences issued, the number of engines and fishing boats, the subsidies granted to fishermen; monthly statistics of the total fish catch by foreign fleet and government share; monthly data on the total fish purchases in quantity and value, prices of fresh fish by species. The results of the fishery survey of the villages of the Governorate of Musandam for the year 1982 are also included.

Pakistan

Title:	Handbook of Fisheries Statistics of Pakistan. 1984
Sub-title:	
Issuing Body:	Survey and Statistics Section, Marine Fisheries Department
Place of Publication:	Karachi
Date of Publication:	December 1985
Number of Pages:	107 p.
Volume/Issue Number:	Vol. 13
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics provided on Pakistan's fisheries include tables on: 1) the quantities of nominal catch by province/area and by year; 2) the disposition of the marine and inland catch by channel of disposition; 3) quantity of catch expressed as local consumption and exportable surplus; 4) the quantities and values of exports by commodity, by month, by year, by country of destination and by name of commodity processor; 5) the numbers of marine and inland fishing craft subdivided by method of propulsion, province, coastal area and year; 6) the number of full and part-time marine/ inland fishermen by province, area and year; 7) the number, type and capacity of fish processing plants by type; 8) wholesale prices by month and coastal area and by species and month.

Panama

Title: Estadística Pesquera. 1969-1978

Sub-title:

Issuing Body: Dirección General de Recursos Marinos, Ministerio de Comercio e Industrias.

Place of Publication: Panama

Date of Publication: November 1979

Number of Pages: 67 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Irregular

Notes:

Statistics on landings, production, imports and exports for the period 1969-78 are presented. A summary of total landings is given by species group and disposition. Other tables include: 1) the quantity of shrimp landings by species and month; 2) the quantity of monthly production of processed shrimps; 3) quantities of herring and anchovy landings for industrial use by month; 4) quantities and values of fishery product imports and exports by commodity and country; 5) quantities of total shrimp landings by year and quantities and values of shrimp exports by country and year; 6) the quantities of shrimp exports by country and exports of fish meal and oil by year; 7) per capita consumption of local landed and imported fish; 8) the number, gross tonnage, length and horsepower of shrimp and purse seine vessels by year and material of construction; 9) artisanal landings by species and district and by district and month; 10) the number, workforce and value of production of fish processing plants by year.

Papua New Guinea

Title:	Fisheries Research Annual Report. 1984
Sub-title:	
Issuing Body:	Fisheries Division, Department of Primary Industry.
Place of Publication:	Port Moresby
Date of Publication:	April 1985
Number of Pages:	77 p.
Volume/Issue Number:	85/5
Series Title/Number:	Technical Report
Frequency of Publication:	Annual
Notes:	

The activities of the Fisheries Research and Survey branch and thus the current state of Papua New Guinea fisheries are discussed. Each fishery sub-sector is discussed and for some of them catch and effort statistics are presented.

Peru

Title:	Anuario Estadístico Pesquero. (Lima) 1982
Sub-title:	
Issuing Body:	Oficina de Estadística, Oficina de Presupuesto y Planificación, Ministerio de Pesquería.
Place of Publication:	Lima
Date of Publication:	October 1986
Number of Pages:	252 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Detailed annual statistics on landings, production, trade, manpower and infrastructure of the Peruvian fishing industry are presented. Quantities and values of marine landings, are subdivided by type of disposition, port, species and month. Inland landings are given by type of disposition, fishing area, species and month. Quantities of industrial production are allocated by species, product form, place of processing and month. Statistics on trade include exports, imports and domestic consumption. Quantities and values of imports and exports of fishery products are subdivided by product, product form, country of origin/destination and port of embarkation/arrival. Total consumption (imports and domestic supply) are given by product, product form, species and month. The quantity of fresh consumption and quantity and value of fish entering Lima's main market are given by port of origin and species. Statistics on the consumption of marine mammal products are also included. Manpower and infrastructure statistics include the manpower and numbers of fish processing plants, the numbers of fishermen by port and the number of fishing trips. Statistics on the anchovy and whaling fleets are also included.

Peru

Title:	Parte de Actividades del Sector Pesquero. Enero-Diciembre 1985.
Sub-title:	Cifras Finales
Issuing Body:	Oficina de Estadística, Oficina de Presupuesto y Planificación, Ministerio de Pesquería.
Place of Publication:	Lima
Date of Publication:	1986
Number of Pages:	69 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Previous title: "Informe Estadístico Anual del Sector Pesquero".

A preview of annual fishery statistics is presented. Quantities of landings are subdivided by species, port, month and type of disposition. Quantities of industrial production and domestic consumption are given by type of product and month. For each main product type a table giving the quantities of landings used, production, domestic consumption and exports is presented. Exports of main product types are given by country. Quantities of fresh and frozen fish sales in Lima and the rest of Peru and average monthly prices in Lima are included. Per capita fish consumption is given. Other financial/economic statistics on fisheries are given.

The Philippines

Title: Fisheries Statistics of the Philippines. 1982

Sub-title:

Issuing Body: Bureau of Fisheries and Aquatic Resources, Ministry of Natural Resources

Place of Publication: Manila

Date of Publication:

Number of Pages: 442 p.

Volume/Issue Number: Vol. 32

Series Title/Number:

Frequency of Publication: Annual

Notes:

Statistics on fish production and trade in the Philippines are presented. The quantity of total production in the Philippines is given by fishery sector. Detailed statistics provide the quantity of production of the commercial and municipal marine fishery sector subdivided by species, region, province, landing site, gear and statistical fishing area. The quantity of production of the municipal inland fishery sector is given by species. The number of vessels in the commercial fishing fleet are given by tonnage class, horsepower and gear. The number of fishermen and accessory craft are provided. The quantity of production and area of fish ponds in operation are given by region and province. Quantities and values of local trade reported allocated by transportation used, month, commodity and region/province of commodity orign. Retrospective data is included.

Portugal

Title:	Estadísticas da Pesca: Continente, Açores e Madeira. 1984
Sub-title:	
Issuing Body:	Instituto Nacional de Estadística
Place of Publication:	Lisboa
Date of Publication:	July 1985
Number of Pages:	44 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual fishery statistics of mainland Portugal, the Azores and Madeira in terms of fishing vessels, gear, manpower, landings, trade, industrial consumption and prices are provided. Statistics include tables on: 1) the number and gross tonnage of registered and active fishing vessels subdivided by region of registration, harbour of registration, tonnage class and method of propulsion; 2) the number of gear, vessels, fishing days landings and fishermen by type of gear; 3) the number and horsepower of engines by region of registration and type of engine; 4) the number of registered fishermen by region of registration and age; 5) quantities and values of total and artisanal landings subdivided by species group, species and principal port; 6) cod, sardine and trawl landings; 7) the number, area and yield of mollusc and shellfish nurseries; 8) cetacean catch; 9) quantities and values of marine imports and exports by commodity; 10) quantities of marine trade between mainland Portugal, the Azores and Madeira by commodity; 11) the quantities of marine raw material used by fishery processing plants and product obtained by product; 12) average annual and monthly fish prices. Other statistics on vessels constructed that year, shipwrecks, fish restocking and financial/economic data are given.

Portugal

Title:	Boletín mensal das Estatísticas da Agricultura e da Pesca. 1983
Sub-title:	Continent, Açores, Madeira
Issuing Body:	Instituto Nacional de Estadística.
Place of Publication:	Lisboa
Date of Publication:	December 1984
Number of Pages:	118 p. *
Volume/Issue Number:	Año 8, Nos. 9-12, i.e. months
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Monthly statistics on fishery landings, fish prices, exports and imports for the latest data month(s) and for the year so far are presented. Quantities and values of total and artisanal landings by marine region and species group, of mainland cod landings by region of landing and form of landed fish, and of mainland trawl landings by form of landed fish, port and species group are given. Average prices of landed fish are allocated by species and region. Quantities and values of imports and exports are given by commodity. Statistics are compared with the corresponding data from the previous two years.

Puerto Rico

Title:	Informe Técnico. 1980
Sub-title:	Perspectiva de la Estadísticas de la Pesca en Pequeña Escala de Puerto Rico. 1972 - 1978
Issuing Body:	Laboratorio de Investigaciones Pesqueras, Corporación para el Desarrollo y Administración de los Recursos Marinos, Lacustres y Fluviales de Puerto Rico.
Place of Publication:	Cabo Rojo
Date of Publication:	1980
Number of Pages:	27 p.
Volume/Issue Number:	1 (1)
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	Only issue available

Statistical data from the Fisheries Statistics Projects of Puerto Rico is presented. Detailed statistics from 1977 and 1978 and a synopsis of information since 1972 are given. The number and type of fishermen, vessels and gear are allocated by coastal area. Further data on fishing vessels is given by length and horsepower. Quantities and values of landings are allocated by species, coastal area and fishing gear. Quantities and values of landings, number of fishermen, vessels and gear are given by coastal area and municipality.

Reunion

Title:	Rapport d'Activité. (D.O.M.-T.O.M.) Exercice 1984
Sub-title:	La Reunion
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	
Number of Pages:	96 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

The state of fisheries and aquaculture in Reunion are discussed. For each fishery sector the number of fishermen and fishing units and the quantities and values of landings are provided.

Reunion

Title:	Bulletin Trimestriel (D.O.M.-T.O.M.)
Sub-title:	La Reunion
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	December 1985
Number of Pages:	17 p. *
Volume/Issue Number:	No. 45
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

The quantity and value of fish catch allocated by fishery sector is included in this bulletin.

St.Pierre et Miquelon

Title:	Rapport d'Activité. (D.O.M.-T.O.M.) Exercice 1984
Sub-title:	St.Pierre et Miquelon
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	
Number of Pages:	51 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the artisanal and industrial fisheries in St.Pierre and Miquelon are presented. These include: 1) the quantity of artisanal and industrial sector catches and number of vessels allocated by year; 2) the quantity of production of fish products processed by "Interpêche" by product and year; 3) the quantity of local sales of "Interpêche" fish products by product group and year; 4) the quantity and value of export sales of "Interpêche" fish products by product group, country and year.

St.Pierre et Miquelon

Title:	Bulletin Trimestriel (D.O.M.-T.O.M.)
Sub-title:	St.Pierre et Miquelon
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	December 1985
Number of Pages:	13 p. *
Volume/Issue Number:	No. 45
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Statistical tables on fisheries in St.Pierre and Miquelon give: 1) the quantity of artisanal and industrial catch; 2) the number of artisanal and industrial fishing vessels; 3) the quantity of processed fish products produced by product group.

Sao Tomé and Principe

Title:	Anuario da Pesca. 1961-1978
Sub-title:	
Issuing Body:	Direcçao de Estatística em Sao Tomé e Principe
Place of Publication:	
Date of Publication:	1980
Number of Pages:	59 p.
Volume/Issue Number:	Vol. 1
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Only issue available

Statistics on fishermen, fishing vessels and landings in the traditional and industrial fishing sectors in Sao Tomé and Principe for the years 1961 to 1978 are presented. The number of fishermen and number and type of vessels are given by province and sector. Details of industrial vessels in terms of material of construction, type of fishing and gross tonnage, etc., are included. Statistical breakdowns of the quantities and values of landings are given by province, fishery sector, species group, species and quarter.

Saudi Arabia

Title:	Fishery Statistics Bulletin (Saudi Arabia)
Sub-title:	
Issuing Body:	Marine Fisheries Research and Development Centre, Ministry of Agriculture and Water
Place of Publication:	Jeddah
Date of Publication:	1987
Number of Pages:	139 p.
Volume/Issue Number:	1
Series Title/Number:	
Frequency of Publication:	
Notes:	

Statistics refer to the annual period October 1985 - September 1986 (1406 H). Catch statistics in tonnage for the marine sectors are detailed by species, by traditional and industrial fisheries and by sea-coasts. A further breakdown of quarterly data of landings by coast is provided. Production statistics for the major species composing the catch of the traditional sectors are provided in numbers at length intervals. Imports and exports by fishery commodity, in quantities and values, are detailed by country of origin and destination. Average wholesale prices of locally produced fresh fish are presented for two major fish markets and are used to estimate the income generated from fresh fish sales in the Kingdom. The last section presents data on the number of fishermen and their age distribution, on fishing craft in numbers by sea-coast, fisheries sector and type of material. A comparative table on catch and external trade of fisheries products in the Arabian Region in 1985 is also given.

Senegal

Title:	Resultats Generaux de la Pêche Maritime Sénégalaise. 1982
Sub-title:	
Issuing Body:	Direction de l'Oceanographie et des Pêches Maritimes, Secretariat d'Etat a la Pêche Maritime.
Place of Publication:	Dakar
Date of Publication:	August 1983
Number of Pages:	106 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Issues for 1983 and 1984 have been published by Institut Sénégalais de Recherches Agricoles, Centre de Recherches Océanographiques de Dakar-Tiaroye.

Statistics on artisanal and industrial fishing in Senegalese waters and Senegalese fishery exports are presented. For the artisanal sector statistics include tables on each region giving: 1) the number of fishermen, canoes and nets by area; 2) quantities and some values of landings by species and month; 3) quantities of production of processed fishery products by month; 4) the quantity of fresh fish and processed products marketed by month and region of destination. The quantities of landings of the artisanal longline fishery are subdivided by species, vessel and month. For the industrial fishery sector data on the landings of the trawl, sardine and tuna fishery subsectors are provided. Data on foreign vessels landing their catches in foreign and Senegalese ports are given. Quantities of industrial sector landings in Senegal are subdivided by vessel, species, month and disposition. Quantities and some values of exports are given by company, commodity and country of destination.

Seychelles

Title:	Tuna Fishery Bulletin, Fourth Quarter 1985
Sub-title:	
Issuing Body:	Seychelles Fishing Authority
Place of Publication:	Victoria
Date of Publication:	1986
Number of Pages:	12 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	Title varies

Statistics of domestic and foreign purse seiners and longliners fishing tuna in the Western Indian Ocean are provided. Tables presented include: 1) monthly catch and effort statistics by species for the year of issue and the preceding year for all purse seiners combined and, separately, for French and Spanish purse seiners; 2) number of purse seiners fishing in the Western Indian Ocean by flag state and GRT; 3) monthly transhippments in quantity and number of longliners by flag state.

Solomon Islands

Title: Fisheries Department Annual Report. 1984

Sub-title:

Issuing Body: Fisheries Department, Ministry of Natural Resources.

Place of Publication: Honiara

Date of Publication: June 1985

Number of Pages: 85 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Annual

Notes:

A summary of the activities of the Fisheries Department and the industrial and artisanal fisheries is presented. Fishery statistics on catches and effort, fish sales, purchases and supplies, imports and exports are provided. Tables give: 1) catch and effort statistics for the industrial sector - pole and line, baitfish, foreign pole and line, longline, Japanese longline and purse seine fisheries - by species and month/year; 2) the quantity of fish product purchases and sales at fishery centres, by centre and month; 3) fish supplies to Honiara by year and origin; 4) quantities of fish shipped to Honiara from provincial fishery centres by centre and month; 5) the disposition of the annual catch by year; 6) the quantities and values of exports and imports subdivided by commodity type, country of destination/origin and year. No statistics are available on the artisanal sector but an estimate of catch is given.

Somalia

Title:	Somali Fishery Yearly Report 1986.
Sub-title:	
Issuing Body:	Ministry of Fisheries and Marine Resources
Place of Publication:	Mogadishu
Date of Publication:	1986
Number of Pages:	24 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

The state of the fisheries industry in Somalia is discussed in this report of the Ministry of Fisheries and Marine Resources. A few statistics on fish catch, processing and infrastructure have also been included: 1) details of commercial fishing operations of foreign and Somali/foreign ventures include some average figures on fishing effort for stern trawlers and small pelagic experimental operations; 2) the capacity of major fish processing plants; 3) the quantity of fish processed and of canned fish produced by season for major fish processing plants; 4) the quantity of fish catch by fishery sector and year; 5) the number of fishery cooperatives and the number and type of boats in service. Other information includes details of the types of fishing gear and fishing methods used in Somalia, the facilities and services available at ports such as cold store and ice making capacity, and whether boat repair, refrigerated transport services, etc., are available.

South Africa

Title: Annual Report for the calendar year 1984

Sub-title:

Issuing Body: Chief Directorate Marine Development, Department of Environment Affairs.

Place of Publication: Cape Town

Date of Publication: 1985

Number of Pages: 49 p.

Volume/Issue Number: 52

Series Title/Number:

Frequency of Publication: Annual

Notes:

Some South African fishery statistics are included in this departmental report. The number of licenced fishing vessels are given by registration area and type of vessel. The number of fishing permits granted to these vessels are given by registration area and fishery sector. Some data on the quantities of catches/landings/harvest are given for seaweed, oysters, abalone, cephalopods, crustaceans, pelagic fish landed at South Western Cape factories, the longline fishery, the harder fishery, the demersal fishery and seals. Other statistics include the quantity of seaweed exports, domestic and export sales of West Coast rock lobster products, quantities of production of pelagic fish products by South Western Cape factories, the number and capacity of pelagic fishing vessels, and the quantity of production of shark commodities and seal oil.

South Africa

Title:	South African Shipping News and Fishing Industry Review
Sub-title:	
Issuing Body:	Marine Information Services (Pty) Limited.
Place of Publication:	Cape Town
Date of Publication:	June 1986
Number of Pages:	36 p. *
Volume/Issue Number:	Vol. XLI, No.3
Series/Title Number:	
Frequency of Publication:	Monthly
Notes:	

Some fishery statistics of catches landed in South African and Southwest African ports are included in this publication. Statistics on the quantities of catch by species include tables for: 1) pelagic fish for the current and the previous data months; 2) bottom-trawled fish by year; 3) the hand line, small net catch by year; 4) tuna by year; 5) the long line catch by year; 6) the Natal trawl catch by year; 7) the deepsea trawl catch for the current and previous data month available. Rock lobster production by year is also given.

Spain

Title:	Anuario de Pesca Maritima. 1983
Sub-title:	
Issuing Body:	Secretaria General Tecnica, Ministerio de Agricultura, Pesca y Alimentación.
Place of Publication:	Madrid
Date of Publication:	
Number of Pages:	487 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the marine fleet, catches and landings are presented: 1) the number of vessels, gross tonnage, horsepower and number of crew are given subdivided by gross tonnage class, type of vessel, age group of vessel, region, province and district; 2) chronological annual summaries of the quantities and values of catches and landings are given by district, by main species, by year, by region and by fishery sector; 3) quantities and values of catches and landings for that year are given by fishery sector, species and month; 4) quantities and values of landings are given for each region and each district by fishery sector, species and month.

Spain

Title:	Boletín Mensual de Estadística. Julio 1986.
Sub-title:	
Issuing Body:	Secretaría General Técnica, Ministerio de Agricultura, Pesca y Alimenteación.
Place of Publication	Madrid
Date of Publication:	July 1986
Number of Pages:	114 p. *
Volume/Issue Number:	7
Series/Title Number:	
Frequency of Publication:	Monthly
Notes:	

Statistics on Spanish fisheries are included alongside those on agriculture. Tables included are: 1) the quantity and value fish landings/production by species group, by landing state (fresh, frozen, aquaculture production) and main species for that month and the year so far; 2) the quantity and value of fish landings/production for that month, the year so far and compared to the same period in the previous year subdivided by region of capture for (a) fresh fish landings, (b) production of culture farms and nurseries, and (c) frozen fish landings; 3) the quantity and value of total annual fish landings for the two previous years by maritime district; 4) some retrospective data on the quantity and value of landings of principal species by species and year; 5) the quantity and value of imports and exports of fishery products by main commodity for the last two data months and for the year so far.

Sri Lanka

Title:	Statistical Abstract, 1985
Sub-title:	
Issuing Body:	Department of Census and Statistics, Ministry of Plan Implementation
Place of Publication:	Colombo
Date of Publication:	January 1987
Number of Pages:	396 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some statistics on the fisheries of Sri Lanka are included in this statistical abstract. Production of fresh and cured fish by the coastal fishing industry for the three years preceding that of the year of issue, is allocated by district and by main species; producers' and market prices of wet and dried fish are also provided. Some detail on national fish consumption by product is included in the food balance sheet.

Suriname

Title:	Landbouwstatistische Gegevens. 1970-1979
Sub-title:	
Issuing Body:	Ministerie van Landbouw Veeteelt, Visserij en Bosbouw
Place of Publication:	Suriname
Date of Publication:	June 1981
Number of Pages:	29 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Some fishery statistics of Suriname are included in this publication. Tables provide data on: 1) the quantity and value of artisanal production (catch) by species group and year; 2) the number of marine vessels and the quantity and value of their total shrimp catch, shrimp catch destined for export and shrimp catch destined for local consumption by year; 3) the quantity, wholesale and retail value of fish sales by species group and year.

Sweden

Title:	Fiske - en översikt. 1984 Definitiva uppgifter
Sub-title:	
Issuing Body:	Statistiska Centralbyraan
Place of Publication:	Stockholm
Date of Publication:	September 1985
Number of Pages:	46 p.
Volume/Issue Number:	
Series Title/Number:	Statistiska Meddelamden J55SM8501
Frequency of Publication:	Annual
Notes:	Previous title to 1982 was: "Fiskestatistik Aarsbok"

Annual statistics on Swedish sea fisheries are presented. Statistics provided are: 1) the quantities of catch (live weight) by species and fishing area, and for each fishing area by species and month, by fishing gear and species, and by fishing gear, tonnage group and species; 2) quantities and values of landings allocated by species and coastal district, and for each coastal district by species and month; 3) landings made abroad by Swedish fishermen given by species and month; 5) quantities and values of exports and imports given by product and by product and major country of origin/destination. Data on the regulation of fish prices is also included.

Sweden

Title:	Saltsjöfiskets fångster under juni 1986
Sub-title:	Preliminära uppgifter
Issuing Body:	Statistiska Centralbyrån
Place of Publication:	Orebro
Date of Publication:	1986
Number of Pages:	5 p.
Volume/Issue Number:	
Series Title/Number:	Statistiska Meddelanden. J SO SM 8608
Frequency of Publication:	Monthly
Notes:	Provisional statistics. Final statistics are published in "Fiske -en översikt". Issued as one of the Statistical Reports Series J.

Statistics on Swedish sea fisheries are presented. Data is given for that data month and for the year so far and is compared to the same periods in the previous year. Tables include: 1) the quantity of total fish landings by coastal area and species group; 2) the quantity and value of landings by species; 3) the quantity and value of landings for each coastal area by species.

Sweden

Title:	Fiskestatistik Aarsbok 1982
Sub-title:	
Issuing Body:	Statistiska Centralbyraan
Place of Publication:	Stockholm
Date of Publication:	1982
Number of Pages:	93 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Since 1982 replaced by: Fiske - en oversikt

Annual statistics on vessels, catches, landings and trade are presented. The numbers of marine vessels are given by country, coastal area and HP group and their total engine capacity. Quantities of catch (live weight) are given by species and fishing area, and for each fishing area by species and month, by species and fishing gear and by fishing gear, tonnage group and species. Quantities and values of landings (landed weight) are presented by species and coastal area and for each coastal area by species and month. Some statistics on first hand sales (quantities and prices) on the East and West coasts and on fish consumption and consumer prices are given. Statistics on international trade include the quantities and values of imports and exports by product type and by country. Socio-economic statistics on the fishing industry and relevant international statistics are also presented. Data from the most recent tri-annual census on the structure of the fishing industry is provided. This includes the numbers of marine and freshwater fishermen, fishing gear and vessels by country, by coastal area/lake.

Tanzania - (Tanganyika)

Title:	1984 Annual Report - Statistics
Sub-title:	
Issuing Body:	Fisheries Division, Ministry of Natural Resources and Tourism
Place of Publication:	Dar es Salaam
Date of Publication:	1987
Number of Pages:	56 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	
Notes:	First issue of a report available in mimeographed form, as a computer printout.

Summary data for Tanzania (mainland) on number of fishermen, fishing vessels, gears in use, total catches in volume and value are included. Summarized statistics on production in quantity and value are presented by major and minor water bodies for inland fisheries and by region for marine fisheries. A table on volume and value of fishery products exported is also included. For each main and minor water body and each marine region the following statistics are available: 1) total numbers of fishermen, fishing vessels, and fishing gears by type and size; 2) number of fishermen, vessels, volume and value of fish caught in total, per fisherman, per vessel, by fishing station; and 3) volume, value and average selling price of fish caught by species by fishing station.

Tanzania - (Zanzibar)

Title:	Statistical Abstract
Sub-title:	
Issuing Body:	Department of Statistics, Ministry of State (Planning)
Place of Publication:	Zanzibar
Date of Publication:	June 1982
Number of Pages:	77 p. *
Volume/Issue Number:	II
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Social and economic statistics on Zanzibar are presented and include the quantity and value of fish caught in Zanzibar by year.

Thailand

Title:	Fisheries Record of Thailand. 1983
Sub-title:	
Issuing Body:	Department of Fisheries, Ministry of Agriculture and Cooperatives.
Place of Publication:	Bangkok
Date of Publication:	April 1985
Number of Pages:	139 p.
Volume/Issue Number:	No. 3
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

The marine, freshwater and aquaculture fisheries of Thailand are covered. Statistics on catch, marketing, aquaculture production, foreign trade and the structure of the fishing industry are presented. Some annual series data is given. Quantities of catch of the marine and freshwater fisheries are allocated by species (also values), by species and type of disposition, and by province and/or region. For the marine fisheries quantities and values of catch are given by major type of gear and species. Quantities of marine and freshwater fish landings at Bangkok fish market are presented by species and by month. Minimum, maximum and average prices are given for each fish item. Statistics on aquaculture give the number of fish fry produced by the inland fisheries station by species, and the number of farms and freshwater fish produced by type of culture. Quantities and values of imports and exports are allocated by commodity and country of origin/destination. A comparison of imports and exports is made by year. The number of fishing boats is given by province; the number of fish processing plants by province and type.

Thailand

Title:	The Marine Fisheries Statistics [Based on the Sample Survey] 1983
Sub-title:	
Issuing Body:	Department of Fisheries, Ministry of Agriculture and Cooperatives.
Place of Publication:	Bangkok
Date of Publication:	1986
Number of Pages:	234 p.
Volume/Issue Number:	No. 2
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on marine catch and coastal aquaculture are presented. A summary of quantities and values of catch by species since 1967 is given. Quantities of catch are allocated by gear and species and for the major types of gear by species and month. Catch and effort (number of trips, days, hauls and hours) are given for all gears and each type of gear by species and fishing area. Catch per fishing effort is also given for all and each type of gear by fishing area. Quantities of coastal culture production are given by province and species. The number and area of shrimp farms are given.

Thailand

Title:	Freshwater Fishfarm Production. 1983
Sub-title:	
Issuing Body:	Department of Fisheries, Ministry of Agriculture and Cooperatives.
Place of Publication:	Bangkok
Date of Publication:	June 1985
Number of Pages:	101 p.
Volume/Issue Number:	No. 8
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on Thai freshwater fishfarming are presented. Data is mostly for the year in the title, but some annual time series summaries are included. The number of fishfarms, nursery farms and the number and area of fish culture units are presented by type of culture and province. For each province the number of fishfarms, fish culture units and fishfarm area and the number and area of nursery farms are allocated by type of culture and species. Quantities and values of fishfarm production are presented for the whole country, for each region and for each province by type of culture and species. Average freshwater fish prices are given by species and province.

Thailand

Title: Statistics on Fisheries Factory. 1984

Sub-title:

Issuing Body: Department of Fisheries, Ministry of Agriculture and Cooperatives.

Place of Publication: Bangkok

Date of Publication: 1986

Number of Pages: 50 p.

Volume/Issue Number: No. 1

Series Title/Number:

Frequency of Publication: Annual

Notes:

Statistics on fish processing plants in Thailand are presented. Quantities of marine products used in the fish processing industry are given for each province subdivided by species group, species, and type of processing plant. The number of fish processing plants are given by province and type. Quantities of production are only included for fish meal and shrimp paste. Other tables on wholesale and retail prices for fish meal and for trash fish for fish meal production, imports and exports of fish meal are given. Data regarding shipyards, repairyards and ice plants are also presented.

Thailand

Title:	Thai Fishing Vessel Statistics. 1983
Sub-title:	
Issuing Body:	Department of Fisheries, Ministry of Agriculture and Cooperatives.
Place of Publication:	Bangkok
Date of Publication:	November 1984
Number of Pages:	64 p.
Volume/Issue Number:	No. 1/1985
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on Thai fishing vessels are presented. The number of fishing boats registered are allocated by province and size, for each province by gear and size and for each type of gear by province and size. The number and gross tonnage of boats are given by gear and size and by province. Some annual series data is included.

Tunisia

Title:	Annuaire des Statistiques des Produits de la Pêche en Tunisie. 1981
Sub-title:	
Issuing Body:	Commissariet General de al Pêche Ministère de l'Agriculture
Place of Publication:	Tunis
Date of Publication:	
Number of Pages:	100 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics on fish production from Tunisian fisheries are presented. Quantities and some values of production are allocated by port and fishery sector (coastal, trawl, fire, brackish, tuna, lobster, shellfish/molluscs, coral, sponge), by fishery sector and governorate. Detailed statistics provide the quantities and some values of production for: 1) the coastal, trawl and fire fishery sectors subdivided by month, species group, species and port; 2) the brackish fishery sector subdivided by month, lagoon and species; 3) for the molluscs, coral and sponge fishery sectors by month and port. Some annual series data on the quantities and values of production is given.

Turkey

Title:	Fishery Statistics. 1984
Sub-title:	
Issuing Body:	Devlet Istatisik Enstitusu Basbakanlils
Place of Publication:	Ankara
Date of Publication:	
Number of Pages:	20 p.
Volume/Issue Number:	No. 1166
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery statistics collected by means of an annual survey provide data on landings, fishing vessels and fishery products. Quantities of marine and freshwater fish catches and of marine catches of crustaceans and molluscs are given by species and by region/province. The number of fishing boats are allocated by type, region, horsepower, tonnage, length and number of crew. The quantitiy of total production and sales of fishery products are given by marketing type and region.

United Kingdom

Title:	Sea Fisheries Statistical Tables, 1984
Sub-title:	
Issuing Body:	Ministry of Agriculture, Fisheries and Food
Place of Publication:	London
Date of Publication:	1986
Number of Pages:	41 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the British fishing industry in terms of landings, consumption, vessels and international trade are presented. When available separate figures are given for England and Wales, Scotland and Northern Ireland. Statistics are mainly for the issue year although retrospective statistics are also presented. Tables are included on: 1) landings: the quantities and values of UK landings allocated by species, by major port, by region of capture, by vessel length and by distant water vessels; fishing effort given by region of capture; quantities and values of foreign vessel landings allocated by main species and nationality of vessel; the average annual values of fish based on first hand sales given by species. 2) Consumption: quantities of fish consumption per head of population. 3) Fishermen and Fishing Vessels: the number of fishermen; the number of fishing vessels by main vessel length and by main port subdivided according to method of capture, propulsion and registered length; vessel age by port. 4) Trade: international trade statistics including quantities and values of imports and exports by product type species and country. 5) Monthly data on landings.

United Kingdom

Title:	Monthly Trade Bulletin: United Kingdom. Imports and Exports of Fish and Fish Products. December 1985
Sub-title:	
Issuing Body:	Sea Fish Industry Authority
Place of Publication:	Edinburgh
Date of Publication:	
Number of Pages:	17 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Quantities and values of United Kingdom imports and exports of marine and freshwater fish and fish products are given by product type/species, by product type and country and for fresh, chilled and frozen fish by main species and country. The quantities, average prices and EEC reference prices of imports of frozen fish from non-EEC countries are given by species and product type. A summary of the quantities and values of imports and exports, their percentage changes since the previous year and the monthly trade balance are given. Statistics are presented for the month of issue (except data on trade allocated by country) and as an accumulative figure for that year.

United Kingdom - (England & Wales)

Title:	Monthly Return of Sea Fisheries Statistics - England and Wales
Sub-title:	Provisional Return for the period January - December 1985
Issuing Body:	Fisheries Statistics Unit, Ministry of Agriculture, Fisheries and Food
Place of Publication:	London
Date of Publication:	No publication date
Number of Pages:	14 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

Statistics on landings made by British and foreign vessels in England and Wales are presented. Tables give the quantities and values of: 1) total UK landings by species group and country of landing (UK); 2) total landings in England and Wales of British and foreign vessels subdivided by species for that data month and that year so far; 3) landings of British vessels in England and Wales by species and port, and by species and area of capture for that year so far.

United Kingdom - (Northern Ireland)

Title	Report of the Sea and Inland Fisheries of Northern Ireland, 1985
Sub-title:	
Issuing Body:	Department of Agriculture
Place of Publication:	Belfast
Date of Publication	1986
Number of Pages:	25 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

A review of the state of the sea and inland fisheries of Northern Ireland is presented. A statistical annex includes tables on: 1) the quantity and calue of catch by species, by year and port and by year and main speices; 2) the quantity and value of production of oyster farms by year; 3) the number of fishing vessels by home port and vessel length and by vessel age and length; 4) quantity and value of salmon and eel catch by year. Other tables on grants/loans to fishermen are included.

United Kingdom - (Scotland)

Title:	Report of the Sea and Inland Fisheries of Northern Ireland, 1985
Sub-title:	
Issuing Body:	Department of Agriculture
Place of Publication:	Belfast
Date of Publication:	1986
Number of Pages:	25 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

A review of the state of the sea and inland fisheries of Northern Ireland is presented. A statistical annex includes tables on: 1) the quantity and value of catch by species, by year and port and by year and main species; 2) the quantity and value of production of oyster farms by year; 3) the number of fishing vessels by home port and vessel length and by vessel age and length; 49 quantity and value of salmon and eel catch by year. Other tables on grants/loans to fishermen are included.

United Kingdom - (Scotland)

Title:	Scottish Sea Fisheries Statistical Tables. 1984
Sub-title:	
Issuing Body:	Fisheries Economics and Statistics Unit, Department of Agriculture and Fisheries for Scotland.
Place of Publication:	Edinburgh
Date of Publication:	1985
Number of Pages:	52 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual statistics mainly concerning the quantities and values of Scottish landings and the number of Scottish fishing vessels are presented. A Summary of UK landings is given by country of landing, species group and main species. Landings in Scotland by UK vessels are subdivided by species, fishing district, creek, gear and ICES area. Landings in Scotland by Scottish vessels are further subdivided by base district and landing district. Landings by Scottish vessels in England and Wales are given by port and species group by species. Landings by Scottish and other UK vessels in Scotland are given by nationality, gear and length group of vessel. The number of Scottish fishing vessels are allocated by size, base district and gear. The number of fishermen are given by district of residence. The disposition of the mackerel and sprat catch is given by type of disposition. The quantity of fish used in the production of fishery by-products is given by species. The quantity and value of production of fish products any by-products is given by product.

United Kingdom - (Scotland)

Title:	Monthly Summary of Sea Fisheries Statistics - Scotland. April 1986
Sub-title:	
Issuing Body:	Fisheries Economic and Statistics Unit, (FESU), Department of Agriculture and Fisheries for Scotland.
Place of Publication:	Edinburgh
Date of Publication:	May 1986
Number of Pages:	3 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Monthly
Notes:	

A summary of the quantities and values of landings in Scotland for: 1) the current data month; 2) the current year so far; 3) the previous year are presented. Statistics are given by species and by whether they are landed by British or foreign vessels.

United States of America

Title:	Fishery Statistics of the United States. 1977
Sub-title:	Statistical Digest
Issuing Body:	National Marine Fisheries Service
Place of Publication:	Washington
Date of Publication:	February 1984
Number of Pages:	407 p.
Volume/Issue Number:	No.71
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

A review of United States marine and inland commercial fisheries with final statistics on landings, employment, fishing craft, gear, processed fishery products, freezings, cold storage holdings and international trade is presented. Data on Hawaii, Puerto Rico and Canadian Great Lake landings are also included. Statistics are presented as a general review by region/state followed by data on fishermen, craft, gear and landings for each state. Tables include: 1) a summary of the number of fishermen and the number and type of vessels and gear operated; 2) the number of vessels by tonnage group, by length, by year of construction and by gear and material of construction; 3) the quantities and values of landings by species, gear and distance off shore and by disposition; 4) quantities of landings used for industrial products by species and by product; 5) the quantities and values of processed products by product; 6) the number of processing plants and their workforce; 7) a summary of freezings and cold storage holdings by month and by month and species; 8) quantities and values of imports and exports by product. An account of the statistical survey procedure is also included.

United States of America

Title:	Fisheries of the United States. 1985
Sub-title:	
Issuing Body:	National Marine Fisheries Service, National Oceanic and Atmospheric Administration, US Dept. of Commerce.
Place of Publication:	Washington
Date of Publication:	April 1986
Number of Pages:	121 p.
Volume/Issue Number:	
Series Title/Number:	Current Fishery Statistics No.8380
Frequency of Publication:	Annual
Notes:	Taken from the series "Current Fishery Statistics"

Preliminary statistics on US fisheries are presented. Final data is published in "Fishery Statistics of the United States". Statistics include: 1) the quantities and values of US commercial fishery landings by species, region, state, port, disposition and distance from shore; 2) quantities and values of joint venture catches by species; 3) data on recreational fishing; 4) quantities of foreign catches made in the US Fishery Conservation Zone by continent, country, fishing area and species; 5) data on world fisheries - catches, imports and exports; 6) quantities of US production of fishery products; 7) quantities and values of cold storage holdings by product and quarter; 8) quantities and values of imports and exports given by commodity, continent and country; 9) the US supply (domestic landings plus imports) of edible and industrial fishery products by year and commodity; 10) ex-vessel wholesale and retail prices and/or prices indices by species/product; 11) data on US per capita fish consumption; 12) other statistics on employment in the fishing industry, numbers of fishing craft, fishing plants, and fishery cooperatives are presented.

United States of America

Title:	Processed Fishery Products. Annual Summary 1985
Sub-title:	
Issuing Body:	National Marine Fisheries Service National Oceanic Atmospheric Administration US Dept. of Commerce
Place of Publication:	Washington
Date of Publication:	1986
Number of Pages	61 p.
Volume/Issue Number:	No. 8399
Series Title/Number:	Current Fishery Statistics
Frequency of Publication:	Annual
Notes:	Beginning with the 1985 Annuals combines publications MF 1-5

The annual production of processed fishery products (fresh and frozen, canned, industrial, and cured) processed in the United States, American Samoa, Puerto Rico and some possessions is presented. Statistics include: 1) a general review of processed fishery products by species in quantity and value, the number of plants and seasonal/yearly employment by region or area; 2) regional reviews by region or area, by state; 3) special sections on canned fishery products; fish fillets and steaks; fish sticks, portions and breaded shrimp; industrial fishery products.

United States of America

Title:	Imports and Exports of Fishery Products, Annual Summary 1986
Sub-title:	
Issuing Body:	National Marine Fisheries Service National Oceanic Atmospheric Administraion US Dept. of Commerce
Place of Publication:	Washington
Date of Publication:	February 1987
Number of Pages:	11 p.
Volume/Issue Number:	No. 8401
Series Title/Number:	Current Fishery Statistics
Frequency of Publication:	Annual
Notes:	

Imports and exports statistics of fishery products by species, in quantity and value are presented for the year of issue and the preceeding year. An historical summary from 1935 to the year of issue is included.

United States of America

Title:	Fish Meal and Oil. December 1985
Sub-title:	
Issuing Body:	National Marine Fisheries Service, National Oceanic Atmospheric Administration. US Dept. of Commerce.
Place of Publication:	Washington
Date of Publication:	
Number of Pages:	2 p.
Volume/Issue Number:	No. 8353
Series Title/Number:	Current Fishery Statistics
Frequency of Publication:	Irregular
Notes:	Title varies

The quantity of domestic production of fish meal, fish solubles and fish oils is given by product. Imports of fish meal by country and exports of fish meal and fish oil are given. Statistics are presented for the month of issue and as a cumulated figure for that year. Data for the previous year are also given.

Uruguay

Title:	Boletín Estadístico Pesquero. 1980-1982
Sub-title:	
Issuing Body:	Instituto Nacional de Pesca, Ministerio de Agricultura y Pesca.
Place of Publication:	Montevideo
Date of Publication:	April 1983
Number of Pages:	23 p.
Volume/Issue Number:	No. 6
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics on the fishery fleet, catch, production and international trade in Uruguay are presented. Statistics cover the latest data year but comparisons are made with previous years. The number, gross tonnage, horsepower and length of vessels are given for each type of fishery (artisanal, coastal, deep sea). More detailed statistics for deep sea vessels include vessel name, year of construction and number of crew. The quantity of nominal catch is given by principal species and by month. Information on the number, type and location of processing plants and the quantity of production by product are provided. The quantity, value and minimum/maximum/average prices of exports are allocated by commodity and country/continent of destination. The quantity and value of imports are given by country.

Uruguay

Title:	Boletín Commercial. January - December 1984
Sub-title:	
Issuing Body:	Instituto Nacional de Pesca, Ministerio de Agricultura y Pesca.
Place of Publication:	Montevideo
Date of Publication:	
Number of Pages:	36 p.
Volume/Issue Number:	No.2/84
Series Title/Number:	
Frequency of Publication:	Semi-annual
Notes:	

Statistics on exports of fishery commodities for that year/quarter are presented. Some comparisons are made with previous year(s). Quantities and values of exports are given by country and for each country by commodity. Exports of tuna are given by commodity form and by country, while the minimum, average and maximum prices of tuna are given by commodity form. Other information on fish exporting establishments is given.

USSR

Title:	Statisticheskie Svedeniya Po Ribnoi Promishlennosti, SSSR 1980-1984 [Statistical Data on the Fishing Industry of the USSR, 1980-1984]
Sub-title:	
Issuing Body:	VNIRO (All-Union Research Institute of Marine Fisheries and Oceanography)
Place of Publication:	Moscow
Date of Publication:	1985
Number of Pages:	51 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

The publication presents statistical data on USSR catches for a five-year period. Summary statistics are included on total catch by FAO major fishing areas for statistical purposes for the period under review and on individual species by fishing areas for the most recent year. For each fishery statistical area catch by species and species groups is presented for a five-year period. Data on production of processed fishery commodities, exports and imports by countries of destination and origin are also included.

Vanuatu

Title:	Vanuatu. Fisheries Department Report. 1983
Sub-title:	
Issuing Body:	Fisheries Department, Ministry of Agriculture, Forestry and Fisheries.
Place of Publication:	Port Vila
Date of Publication:	April 1984
Number of Pages:	22 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Previously issued by Fisheries Department, Ministry of Land and Natural Resources

The activities and achievements of the Fisheries Department, such as the results of the Resource Assessment Programmes are described. The current state of coastal and oceanic fisheries are reviewed. For coastal fisheries quantities and values of production of Village Fisheries Development Programme projects are given. No fishery statistics are available on the total production of coastal fisheries. The source, quantities and values of fish supplied to the government-owned Port Vila Fisheries Ltd., and quantities of local fish sales are presented. Exports and imports of fishery products are given by product group. Statistics for oceanic fisheries include the number of boats contracted to the South Pacific Fishing Company together with the quantities of fish landed by them and re-exported. Quantities of landings are also given by major species.

Wallis et Futuna

Title:	Rapport d'Activité. (D.O.M.-T.O.M.) Exercice 1984
Sub-title:	Wallis et Futuna
Issuing Body:	Institut d'Emission d'Outre Mer
Place of Publication:	Paris
Date of Publication:	
Number of Pages:	28 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

The state of fisheries in Wallis and Futuna are discussed, but no fishery statistics are published.

Yemen, People's Democratic Republic of

Title:	Bulletin of Fisheries Statistics. 1971-1977
Sub-title:	
Issuing Body:	Department of Agriculture and Fisheries Statistics, Central Statistical Organization, Ministry of Planning.
Place of Publication:	Aden
Date of Publication:	January 1979
Number of Pages:	17 p.
Volume/Issue Number:	1
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	Only issue received

Statistics on fish production (catch) from 1971 to 1977 are presented. The quantities and values of production are allocated by sector (Japanese company, joint Yemen/Soviet mission, public, private) and by species. Further details on each sector are given by species and for the cooperative sector by species and governorate.

Yugoslavia

Title:	Morsko Ribarstvo
Sub-title:	
Issuing Body:	Jugoslavenski (Strucno-Popularni) Casopis za Pitanja
Place of Publication:	Zagreb
Date of Publication:	1986
Number of Pages:	37 p. *
Volume/Issue Number:	Vol. 38 No. 2
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Within this fishery magazine a small statistical section on Yugoslavian fisheries is included. Depending on the issue, tables of monthly or annual statistics on marine catch and marine fish products are presented. Statistics are compared with the corresponding period in the previous year. The quantity of marine catch is given by region and/or port and main species. The quantity of production of marine fishery products is given by processing company and product group.

Yugoslavia

Title:	Stocarstvo I Ribarstvo. 1982
Sub-title:	
Issuing Body:	Savezni Zavod za Statistiku
Place of Publication:	Beograd
Date of Publication:	1985
Number of Pages:	46 p. *
Volume/Issue Number:	
Series Title/Number:	Statisticki Bilten 1382
Frequency of Publication:	Annual
Notes:	

Annual statistics on marine and inland fisheries and aquaculture are presented alongside livestock statistics. Data includes tables on: 1) the number of full-time and part-time fishermen by region; 2) the number and gross tonnage of marine vessels by region; 3) the number of inland vessels by region; 4) the quantity of total catch by fishery sector, region and year; 5) the quantity of total marine catch over the past three years by species and region and by region and month; 6) the quantity of marine cooperative catch by year and species and by region and species; 7) the total inland catch by region, year and species; 8) the inland cooperative catch by region and species; 9) the Danube catch by region, year and species; 10) the area of trout and carp fishfarms by region and part of farm; 11) the consumption of fish feed and fertilizers in fishfarms by type and region; 12) the quantity of fishfarm production (harvest) by region and species; 13) the quantity of production of fish fry by species and region.

Zambia

Title:	Department of Fisheries, Annual Report 1981
Sub-title:	
Issuing Body:	Ministry of Agriculture and Water Development
Place of Publication:	Lusaka
Date of Publication:	1984
Number of Pages:	20 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Up to the report for the year 1973, entitled Annual Reports of the Department of Wildlife, Fisheries and National Parks, Ministry of Lands and Natural Resources

Some statistics on total fish catch by lakes and aquaculture production by provinces are included in this report, alongside the description of the departmental research, training, extension and development activities.

Zambia

Title:	Annual Agricultural Statistical Bulletin
Sub-title:	
Issuing Body:	Statistics Section, Planning Division, Ministry of Agriculture and Water Development.
Place of Pbulication:	Lusaka
Date of Publication:	December 1984
Number of Pages:	76 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some fishery statistics covering catch and international trade are included alongside other agriculture statistics. Tables present data on: 1) the quantity of catch by year, quarter and lake/river area; 2) the quantity of imports of fishery products by product group and year; 3) the value of total fishery imports by year; 4) the quantity and value of fishery product exports by year.

Zimbabwe

Title:	1984 Fisheries Statistics
Sub-title.	Lake Kariba - Zimbabwe side
Issuing Body:	Lake Kariba Fisheries Research Institute, Department of National Parks and Wildlife Management
Place of Publication:	Kariba
Date of Publication:	February 1985
Number of Pages:	45 p.
Volume/Issue Number:	Project Report N.49
Series Title/Number:	
Frequency of Publication	Annual
Notes:	

In addition to fishing effort statistics, total and monthly landings for the main species caught, by fishing areas and by fishing villages, are presented for: 1) the pelagic fishery; and 2) and inshore fishery. For the pelagic fishery statistics include total catch, total effort and total catch per unit of effort at each area on a monthly basis. For the inshore fishery, data provided are the estimated catch by village and concession areas; the purchases of a commercial company from villages, by species; the yield, number of fishermen and catch per fisherman in some villages.

INTERNATIONAL SECTION

Fishery Statistical Publications of International Bodies

EEC

Title: Yearbook of Fishery Statistics 1985

Sub-title:

Issuing Body: Statistical Office of the European Communities.

Place of Publication: Bruxelles

Date of Publication: 1985

Number of Pages: 119 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication: Annual

Notes:

Fishery statistics for the European Community and other major fishing nations are presented. Statistics include: 1) the quantities of catches for each country by fishing region, by species group and by principal species; 2) for each EEC country the numbers and gross tonnage of vessels by tonnage; 3) the numbers of fishermen, both the total and the number of full-time fishermen, by country; 4) the quantities of imports and exports by country for each product type.

EEC

Title:	Fisheries: Quantities and values of Landings in the E.C.
Sub-title:	
Issuing Body:	Statistical Office of the European Communities
Place of Publication:	Bruxelles
Date of Publication:	September 1985
Number of Pages:	72 p.
Volume/Issue Number:	3/85
Series Title/Number:	
Frequency of Publication:	Quarterly
Notes:	

Statistics on landings in Community ports are presented. Data has been extracted from national reports of member countries. Quantities and values of landings are given by month over the past two-four year period. There are separate tables for each member country and for the major species of fish.

FAO

Title:	F.A.O. Fishery Committee for the Eastern Central Atlantic. C.E.C.A.F. Statistical Bulletin
Sub-title:	Nominal catches 1972 - 1982
Issuing Body:	Food and Agriculture Organization of the United Nations
Place of Publication:	Roma
Date of Publication:	1984
Number of Pages:	215 p.
Volume/Issue Number:	No.4
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Statistics on catches made in the CECAF region for eleven calendar years are presented. The bulletin is produced for stock assessment purposes and hence catches are allocated by statistical subareas and divisions of the CECAF region, by species groups, by species and by country or area. Countries submit data allocated according to standards in the CECAF system. Data is obtained not only from national offices, but also from other national sources such as research institutions.

FAO

Title:	General Fisheries Council for the Mediterranean. G.F.C.M. Statistical Bulletin
Sub-title:	Nominal Catches 1972 - 1982
Issuing Body:	Food and Agriculture Organization of the United Nations
Place of Publication:	Roma
Date of Publication:	1984
Number of Pages:	137 p.
Volume/Issue Number:	No.5
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Annual statistics over eleven calendar years of nominal catches allocated by statistical division, by species or species group and by country or area for the eight G.F.C.M. divisions of the Mediterranean are provided. Although produced from the same database as the F.A.O. Yearbook of Fishery Statistics, it contains more detail, i.e. catches by statistical division.

IATTC

Title:	Annual Report of the Inter-American Tropical Tuna Commission, 1985
Sub-title:	
Issuing Body:	Inter-American Tropical Tuna Commission
Place of Publication:	La Jolla, USA
Date of Publication:	1986
Number of Pages:	248 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some statistics of tuna catches and landings are presented in this Commission report. The statistical data provided include: 1) historical catches by the Eastern Pacific tuna fleet by species and comparative catches of this fleet in the Western Pacific Ocean and in the Atlantic Ocean; 2) for the year of issue, catches of tuna in the Eastern Pacific Ocean by flag vessels by species and landings by country of landing; 3) historical data on number of vessels and carrying capacity of the international surface-gear fleet fishing in the Eastern Pacific Ocean; 4) for the year of issue, numbers and carrying capacities (in short tons) of fishing vessels (exclusive of longliners) by flag, gear and size class.

ICCAT

Title:	Statistical Bulletin 1984
Sub-title:	
Issuing Body:	International Commission for the Conservation of Atlantic Tunas
Place of Publication:	Madrid
Date of Publication:	1986
Number of Pages:	141 p.
Volume/Issue Number:	Vol.15
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Final edition. Both a provisional and final edition are published.

Statistics on the catch (round weight) of the Atlantic and Mediterranean tuna for the previous eleven years is provided. Quantities of tuna catch are given: 1) for the Atlantic, the Mediterranean and the Atlantic and Mediterranean by species and by country; 2) for each species of tuna by gear, by fishing area and gear, and by country; 3) for each country by species, fishing area and gear; 4) for billfish only by species, area, country and gear. Numbers of tuna fishing boats are given by vessel type, size, country and year.

ICES

Title:	Bulletin Statistique des Pêches Maritimes. 1983
Sub-title:	
Issuing Body:	Conseil International pour l'Exploration de la Mer.
Place of Publication:	Copenhagen
Date of Publication:	March 1986
Number of Pages:	109 p.
Volume/Issue Number:	Vol.68
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Statistics are provided on quantities of nominal catches made in the ICES area that year. Data is officially reported to ICES by member states under the specifications of the STATLANT system. Summaries for selected years since 1973 provide details of the distribution of the quantities of catch in the ICES areas by fishing area, country and species. Statistics for the data year provide the quantities of catch by country and ICES area, by species, country, and ICES area, and for selected species by ICES area, country and month. Special tables give the quantities of catch made in the Regions of NEAFC and the International Baltic Sea Fishery Commission by species and region. No detailed statistics on catch and effort are published, but a list of countries for which they are available is given. No data on aquaculture is published.

ICSEAF

Title:	Statistical Bulletin 1983
Sub-title:	
Issuing Body:	International Commission for the Southeast Atlantic Fisheries
Place of Publication:	Madrid
Date of Publication:	1985
Number of Pages:	217 p.
Volume/Issue Number:	13
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

Catch and fishing effort statistics for the ICSEAF convention area are presented. Data has been collected from the countries concerned on STATLANT 47A and 47B forms. Tabular presentation of the data include: 1) nominal and total nominal catch by country, species, subarea and division of ICSEAF area; 2) nominal and total nominal catch by species, country, subarea and division; 3) nominal catch by country, gear, tonnage class, species, subarea and division; 4) nominal catch by species, division, gear, tonnage class, country and month; 5) nominal catch by selected species, division, country and month; 6) fishing effort and nominal catch by main species sought, division, country, gear, tonnage class, and month; 7) historical catch series for main species are also presented.

INPFC

Title:	International North Pacific Fisheries Commission Statistical Yearbook 1981
Sub-title:	
Issuing Body:	International North Pacific Fisheries Commission
Place of Publication:	Vancouver, Canada
Date of Publication:	1985
Number of Pages:	124 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Annual catch (live weight) and effort statistics of the salmon, groundfish, shrimp, herring, joint venture and king and tanner crab fisheries of Canada, Japan and the United States, made in the INPFC convention area are presented. The number and quantity of salmon catch are given by species, country, region and month. More detailed statistics are given for Canadian catches by species, area (fishing), region, gear and week, for Japanese catches of the mothership gillnet, landbased drift net and coastal salmon fisheries by species, region and quantity of gear used, and for the US catches by state, region, area, district, gear, species, week and month. Effort statistics are also given. Statistics on the groundfish, herring, shrimp fisheries include the number of vessels by vessel type and by region. Quantities of catch are given for each region by species and country. Fishing effort and catch by species area/region are given for each country. The joint venture fishery catches of the US and Canada are presented by species, area and region. Numbers of catch and effort of the king and tanner crab fisheries of the US are given by month.

IPHC

Title:	Annual Report, 1985
Sub-title:	
Issuing Body:	International Pacific Halibut Commission
Place of Publication:	Seattle, USA
Date of Publication:	1986
Number of Pages:	59 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Some statistics on halibut are provided in this Commission report. For the commercial fishery, statistics include: 1) for the year of issue halibut catch by country by statistical area, region, regulatory area and port; 2) historical data on annual landings in quantity, value and ex-vessel price; 3) number of vessels, landings and catch by vessel tonnage class by regulatory area for the year of issue. For the sport fishery, catch in quantity by area by year is provided.

IWC

Title:	International Whaling Statistics. XCIII and XCIV
Sub-title:	
Issuing Body:	Committee for Whaling Statistics, International Whaling Commission
Place of Publication:	Sandefjord, Norway
Date of Publication:	1984
Number of Pages:	61 p.
Volume/Issue Number:	XCIII and XCIV
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Data on the 1983 world aggregate whale catch, i.e. the catch made by Antarctic pelagic expeditions in the Southern hemisphere in the 1982/83 season plus the coastal catch during the calendar year 1983 and the 1983/84 season are presented. Statistics include the number of whales caught, quantity of oil production, number of whaling units in operation with subdivisions by species, size and sex of whales, whaling ground and nationality of whaling unit. Annual time series data is included.

NAFO

Title:	Statistical Bulletin. 1983
Sub-title:	
Issuing Body:	International Commission for the Northwest Atlantic Fisheries
Place of Publication:	Dartmouth, Canada
Date of Publication:	1985
Number of Pages:	279 p.
Volume/Issue Number:	Vol. 33
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Previous title: "Statistical Bulletin for the International Commission for the Northwest Atlantic Fisheries".

Data from STATLANT 21B reports received from the countries concerned is used to compile annual fishery statistics on commercial catches made in the NAFO convention area. Summaries of nominal catches are made by country, subarea and species. More detailed breakdowns for the species/species groups are given by NAFO subarea division, country and for some selected species by month. Nominal catches and fishery effort are presented by division, country, gear, tonnage class, main species and month for each of the NAFO subareas. Statistics on seal catches and hunting effort are also given.

OECD

Title:	Review of Fisheries in OECD Member Countries. 1985
Sub-title:	
Issuing Body:	Organisation for Economic Cooperation and Development
Place of Publication:	Paris
Date of Publication:	1986
Number of Pages:	338 p. *
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

The state of commercial fisheries of OECD member countries are discussed in terms of government action, catch, processing, marketing and international trade. A statistical annex presents statistics for each country. Tables usually include: 1) the quantity and value of catch/landings of national and foreign vessels by disposition and species group/main species; 2) the quantity and value of imports and exports by product group and country of origin/destination.

PSC

Title:	1985/86 First Annual Report
Sub-title:	
Issuing Body:	Pacific Salmon Commission
Place of Publication:	Vancouver, Canada
Date of Publication:	1987
Number of Pages:	91 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	Since 1985 replaces the Annual Report of the former International Pacific Salmon Fisheries Commission

The report summarizes the activities of the Commission. It includes preliminary USA and Canada catch data, in numbers, of coho and chinook salmon by fishery, by region, and gives comparisons with the two preceding years.

SEAFDEC

Title:	Fishery Statistical Bulletin for South China Sea Area. 1984
Sub-title:	
Issuing Body:	Southeast Asian Fisheries Development Center
Place of Publication:	Bangkok
Date of Publication:	November 1986
Number of Pages:	231 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery statistics for the countries and subareas of Southeast Asia are presented. Statistics on fishermen, craft, production, prices, disposition of catch, fish processing, international trade and catch/effort, as well as general geographic, demographic and economic zones are given. For the marine fisheries sector the number of fishermen, fishing establishments by type and size of management, craft by type, tonnage and length, gear by type of gear and size of craft are given. Quantities and values of marine catch are subdivided by species and gear. The quantity and value of inland fishery sector catch is given by species. Statistics on the aquaculture sector provide the number of establishments, workers, the average and quantity and value of yield by species for each type of culture. Wholesale and retail fish prices are presented by species. For each fishery sector the disposition by type of utilization is given.

Greece

Survey

Title:	Results of the Sea Fishery Survey by Motor Vessels for 1981
Sub-title:	
Issuing Body:	National Statistic Service of Greece
Place of Publication:	Athenai
Date of Publication:	1984
Number of Pages:	31 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Annual
Notes:	

Fishery statistics for motorized vessels over 20 HP include tables for that year on: 1) the distribution of motor fishing vessels by horsepower and type of fishry and by tonnage group; 2) the quantities and values of the monthly catch by type of fishery and quality of fish, and by gear and quality; 3) the quantities of catch by principal species, by fishing area and gear, and by principal species and fishing area; 4) the numbers employed each month that year by gear. Comparative summaries for the last three years provide statistics by similar allocations on vessels, catches and employment.

Jamaica

Survey

Title:	Sample Survey of the Fishing Industry on Jamaica. 1981
Sub-title:	
Issuing Body:	Ministry of Agriculture
Place of Publication:	Kingston
Date of Publication:	1982
Number of Pages:	40 p.
Volume/Issue Number:	
Series Title/Number:	
Frequency of Publication:	Irregular
Notes:	

The results of the sample survey include an estimate of marine fish catch and details of fishing vessels. The quantity and value of catch is given by quarter, by type of vessel, by fishing ground, by gear and main species. Statistics on the quantity of catch are given by fishing ground and gear, by type of vessel and gear and by species and fishing ground. The number of landings are given by quarter and fishing ground. The catch per boat by vessel type and the catch per landing by vessel type, by fishing ground and by gear are also given. Some details of catch per unit effort are given by gear. The number of fishing vessels and owners are given by type of gear and district. For each district the number of boats and gear are given by type and by beach.

System

Title: Sistema nacional de estadísticas pesqueras

Sub-title:

Issuing Body: Oficina de Informatica Pesquera, Ministerio de Agricultura y Cría

Place of Publication: Caracas

Date of Publication: October 1983

Number of Pages: 50 p.

Volume/Issue Number:

Series Title/Number:

Frequency of Publication:

Notes:

The publication introduces and describes the structure and scope of the Fishery Information System developed and implemented in Venezuela under an agreement between the Government of Venezuela, the United Nations Development Programme and the Food and Agriculture Organization of the United Nations. The document contains, in a non-technical form, basic concepts on the structure and organization of the fishery information system and its outputs. Samples of the forms utilized in the fishery production system and industrial processing system are included.
